With Liquid Fire Germans Drive British Back

BRILLIANT COUNTER ATTACK BY BRITISH QUICKLY REGAINS LOST GROUND

Huns Hurl Great Masses of Troops Against British and French Lines But Are Unable to Retake Ground

**Haig and Nivelle Hold Recent Gains and Are Throwing
Back Enemy With Heavy Losses—Short Lived Suc-
cesses Were Secured by Germans South of Souchez
River and Near Cerny-En-Laonnois.**

Bitter attacks by the forces of Crown Prince Rupprecht and the German crown prince are being made against the positions, vital to the defenses of Lens and Laon, held by the British and French on the western front. Field Marshal Haig and General Nivelle are holding their recent gains and throwing back the attacking Germans with heavy losses. The Germans are hurling great masses of men against the British and French but without gaining ground.

South of the Souchez river, one of the natural barriers to Lens, the Germans on Friday made a third attempt to recapture the positions taken by the British Thursday and Friday a third time have been thrown back. A momentary footing was won by Prince Rupprecht's men, aided by liquid fire, in the new British positions, but a brilliant counter attack recovered the lost trenches and left the British line unchanged. Around Cerny-En-Laonnois, on the plateau overlooking the Ailette river and only nine miles south of Laon—an important link in the German defensive system in France—the German crown prince is expending his man-power freely but ineffectually in an attempt to regain lost ground. Throwing his men in waves against the French on both sides of the village, he succeeded only in gaining about 200 yards of an advanced element, but his gain was short-lived, as the French counter attack immediately evicted the Germans.

NATIONALISTS THREATEN TO RESIGN SEATS

**Irish Members Do Not Conceal
Their Anxiety Over Irish
Situation.**

(By Morning Bulletin Leased Wire)
LONDON, May 11.—The Daily Telegraph's parliamentary lobby correspondent says that, owing to the recent unfavorable turn in Irish affairs, several leading members of the Nationalist party are threatening to resign their seats in the house of commons.

According to the Times, the South Longford election, in which a Sinn Féin member won the seat, has not altered the government's determination to submit to parliament proposals of an Irish settlement, but there is little doubt that it will cause the ministers to modify their views on the practicality of county option or any similar form of partition.

AUDITOR STILL DISSATISFIED

**Inquiry Closes on Clean Up By
Vickers, Ltd., On Sale Of
Icebreaker.**

(By Morning Bulletin Leased Wire)
OTTAWA, May 11.—That he was still dissatisfied because Vickers Limited, of London, had been allowed to make a profit of half a million dollars on the transfer of the icebreaker "J. D. Hazen," to the Russian government, was the statement made to the public accounts committee this morning by Auditor General Fraser. The London firm, he said, had nothing to do with the original contract with the Canadian government and the Russian government other than the London firm should have got the benefit of their contract.

Where to go Tonight

Majesty Theatre—Sarah Bernhardt in "Jeanne Dore."
Empire Theatre—"The Eyes of the World."
Empress Theatre—"Daredevil Kate."
Pantages Theatre—Milo, Bianca and vaudeville.
Monarch Theatre—George M. Cohan in "Broadway Jones."

GERMANS ATTACK CANADIAN LINE AND TAKE PART

CANADIAN Headquarters in France, May 11.—(By the Canadian Overseas Correspondent)—The enemy attacked with vigor last night and again this morning the trench sector west of Avion which we captured Thursday morning. In this morning's attack the Germans took a part of the trench system. Fighting is still in progress and at the time the correspondent forwarded this despatch it was spreading to the south.

Artillery activity during last night was exceptionally heavy. On the north end of the line near Souchez river the enemy used flame projectors against our trenches.

EFFICIENCY IN HANDLING SUBS IS INCREASING

**Speech of German Secretary of
Navy Shows This Is
Recognized.**

(By Morning Bulletin Leased Wire)
WASHINGTON, D. C., May 11.—

The increasing efficiency of the allies in the submarine warfare is recognized in a speech by the German secretary of the navy in the Reichstag on May 10. Official accounts of the speech reaching here report the German secretary as saying that while the submarine warfare has achieved greater results than were expected a certain number of submarines had been lost as the result of improved means of destruction devised by the allies.

Another official telegram says the Berliner Tageblatt of May 9 complained bitterly of the obstructions being placed by the government on the progress of the commission for discussing the system of government.

MACEDONIA OFFENSIVE CONTINUES

**West of Doiran and West of
Vardar River French Take
Ground.**

(By Morning Bulletin Leased Wire)
LONDON, May 11.—On the front in Macedonia the entente forces continue their offensive with success.

West of Doiran, and west of the Vardar River, French troops have carried by storm an important position south of Huma, on the Serbo-Greek border, and without great covering attacks by the Bulgarians. Twenty miles to the west, and also near the border, the Serbians have captured two Bulgarian works north of Pofar. In addition to inflicting heavy losses on the Germans and the Bulgarians, the entente forces in the Macedonian theatre on Thursday and Friday captured 300 prisoners.

DECLARES RUMORS FALSE

PETROGRAD, May 11, via London.—N. C. Tcheldze, president of the council of soldiers and workmen's delegates, after an investigation, declares that all rumors of anarchy, the proclamation of an autonomous, or strikes in powder works in the Schusselburg district, are absolutely unfounded.

NEW YORK PAYS ITS TRIBUTE TO ALLIED GUESTS

**Brilliant Banquet Is Tendered
British and French
Missions.**

MEDALS TO BALFOUR AND RENE VIVIANI

**Greatest Reception In New
York Since La Fayette's
Visit.**

(By Morning Bulletin Leased Wire)
NEW YORK, May 11.—One of the most brilliant banquets in the history of America was given here tonight in honor of the British and French war missions to the United States.

The guests included Arthur James Balfour, British foreign minister; Rene Viviani, French minister of justice; Marshal Joffre, and two former presidents of the United States—Theodore Roosevelt and William H. Taft—and Sir Thomas White, finance minister for Canada.

At the close of the banquet Mayor Mitchell presented to Mr. Balfour and Mr. Viviani gold medals emblematic of their visit to New York. The mayor then proposed a toast to the president of the United States. The diners rose, cheering frantically, and throwing their table napkins into the air while the orchestra played "The Star Spangled Banner."

The mayor then toasted King George of England, while the orchestra played "God Save the King." This was followed by a toast to the French Republic, which was drunk to the strains of the "Marseillaise," and then there was another toast to the president of France.

As Mr. Mitchell began his address of welcome to the guests, and mentioned the names—Balfour, Viviani, Joffre, Chocheprat, Bridges, De Chair and the others—there were fresh outbursts of cheers. When the mayor referred to the great marshal of France the diners chanted, "Joffre, Joffre, Joffre."

ALL TRADING IN MAY WHEAT IS DISCONTINUED

**Order Is Issued By Board of
Directors of Chicago Board
of Trade.**

(By Morning Bulletin Leased Wire)
CHICAGO, May 11.—Trading in May wheat was ordered discontinued at a meeting of the Board of Directors of the Chicago Board of Trade tonight.

The directors also decided that existing contracts should be adjudicated either by delivery of the property or at a selling price to be fixed by a committee appointed for the purpose. This committee is headed by James A. Patten, and will meet tomorrow morning.

May wheat was quoted at \$2.18 at the close of trading today. Traders said there was no way of estimating the effect of the order on trades existing. The amount of wheat on this market was said to be 180,000 bushels on Saturday, and probably the amount now here was short of these figures.

HUGHES GIVEN BIG RECEPTION

**Victorious Premier of Australia
Honored at Dinner Held In
Melbourne.**

MELBOURNE, Australia, May 11 (Via Reuters' Ottawa Agency).—Premier Hughes was accorded a great reception at the Lord Mayor's dinner last night. In the course of an address he said two important issues were before the people of Australia—the one, loyalty to the Empire, and the other, responsible government.

Referring to the elections, which had given majorities in both houses, Premier Hughes stated that the people had spoken and their voice must be obeyed.

In Secret Session of Commons, Carson Tells of Activities of Navy

**Welcomes Instructive Criticism but Deprecates Attacks Upon Officers
of Navy Outside of House—Describes Vast Area Over Which
Naval Operations Are Being Carried Out and Asked That Incidents
Be Viewed In Their Correct Perspective.**

(By Morning Bulletin Leased Wire)
LONDON, May 11.—When the sitting of the house of commons was resumed today the members again went into secret session.

The following official account of the session was given out:

"Today's secret session of the house of commons proceeded to consider the report on the vote of credit for £500,000,000 which had been agreed to in committee Thursday night. A. F. Whyte called attention to naval affairs in the Mediterranean and asked for better organization and for consideration of the high commands on that sea. Commander Bellairs pressed for a more vigorous naval offensive, younger personnel in naval commands, great rapidity in approval of promotions and a quicker response to important applications to the admiralty.

"Sir Henry Dalglish demanded that, in addition to the king's recent proclamation a further appeal should be made to the country to economize food, and asked a number of questions ranging over many topics connected with the past, present and future of the war.

Deprecated Unjust Attacks

"Sir Edward Carson (First Lord of the Admiralty), said he welcomed instructive criticism, but deprecated attacks sometimes made for interested motives upon officers of the navy outside of the house. He related some recent feats of gallantry and resource on the part of our patrols, which had accounted for German submarines. He

Three Edmonton soldiers are reported as wounded on last night's casualty list, and two others falling from Northern Alberta. There are none reported killed or died. The list is remarkable for the large number of officers' names it contains. One of the wounded, General H. A. Patten, with next of kin in England, is wounded. Three captains have been killed, one is dead of wounds and three are wounded. Ten lieutenants have been killed, two died of wounds, one is reported missing and no less than 45 have been wounded. The only Alberta casualties among the officers are Lieut. W. J. Fisher, of Calgary, and Lieut. C. E. Bruner, of Sunnybrook. The local names are as follows:

Wounded.
437273 Lance Corporal W. R. Eastwood, Edmonton.
466420 Pte. W. H. Lyons, 10441 93rd street, Edmonton.
421266 Pte. C. Newsome, Edmonton.
Pte. F. J. Barnes, Rocky Mountain House.
466893 Pte. Findlay, (no initials or address given).

An earlier list issued yesterday contained 13 names as follows:

Killed.
G. F. Black, Lacombe.
J. A. Armitage, Mannville.
Sergeant H. Wybron, 12018 88th street, Edmonton.

Wounded.
C. H. Holmes, 437 8th st., Edmonton.
E. S. McDonald, Morinville, Alta.
G. F. Carroll, Oyen, Alta.
Died of Wounds.
D. B. McNullan, Tees, Alta.
J. Barker, Edmonton.
A. Noskovak, Ground.
L. Cuddeback, Kinross, Alta.
Act-Corpl. Churchill, Leamington, Alta.
J. J. Redmond, Wetaskiwin, Alta.

Pte. Stanley Harris

Still another addition to the ever-lengthening list of Northern Alberta casualties was made when a telegram was received which reported that Pte. Stanley Harris, of Lamont, was "missing" on that tragic April 9th, when the Canadians swept over Vimy Ridge and so many gallant lads gave their lives for the Empire.

Private Stanley Harris is a son of Mr. and Mrs. E. S. Harris, and previous to enlisting in a local battalion in 1915 was a student in the Edmonton Technical School. His father, up to a year ago, was farming on an extensive scale in the Lamont district, but has since retired from active participation in the agricultural industry. Private Harris has been overseas for more than a year, and hitherto has escaped injury, although he has been through a number of battles and desperate engagements. He is 21 years of age. He was a member of the Methodist church at Lamont, and was held in high esteem by every one who knew him, being of a quiet and modest disposition. His many friends hope that he may still be heard from, and may perhaps be a prisoner of war in the enemy's hands.

expressed a wish that he could publish every one of them, and explained the reasons why, in the higher interests of the war, it was desirable to refrain.

"He described the vast area over which the operations of the navy were daily and hourly carried on and asked that trifling incidents should be criticized with a true sense of their perspective. He gave information about the activity and ability shown in organization of the anti-submarine warfare; the co-operation of the naval air service with coast patrols, and the attention being given to mercantile ship-building.

Tonnage Losses Given
"The tonnage losses of the allies and neutrals for each of the last three months were given to the house. Sir Edward declined to alter the form in which the weekly losses are made public, which he said had been agreed upon among the allies.

"Winston Spencer Churchill referred with satisfaction to the chief features of the debate and, although he said he was not wholly convinced by the prime minister's speech, he thought that the demand for a secret sitting had been well justified.

"Premier Lloyd George gave some figures on the food reserves in the country and again, while expressing a favorable view of the general situation, urged the great importance of the most extensive cultivation of the land. The report on the committee's resolution was agreed to unanimously, and the house adjourned."

Heroes Named in The Casualty Lists

Pte. E. F. Speer

Pte. Earl F. Speer, recently reported wounded, is another Edmonton boy who has been added to the long list of casualties from the fighting at Vimy Ridge.

His mother, Mrs. Margaret Speer, 10717 102nd street, this city, has received official notification that he was hit and is now in hospital. Pte. Speer is 21 years of age. He was born at Speersville, Carleton county, New Brunswick, and came to Edmonton with his parents in June, 1907. When in the city he attended Westminster Presbyterian church and was regarded as a steady and hard working young man. Previous to his enlistment in December, 1915, in an Edmonton battalion, whose members have achieved fame in the war, he was engaged in farming north of the city with his brother.

Pte. J. C. Pateman

Pte. John Cooper Pateman, according to an official telegram received by his mother, was recently injured in the 13th general military hospital at Boulogne April 18, enlisting in a local suffering from a gunshot wound in the chest and abdomen. Pte. Pateman is only 19 years of age and came to Edmonton when he was one year old. Before coming to Edmonton he was employed with the C.P.R. telegraph office here.

His mother, who is a captain with the Women's Volunteer Reserve, lives at 9333 16th avenue, Edmonton. His father, Sapper J. W. J. Pateman, is overseas with the 239th railway construction battalion under Lieut.-Col. J. K. Cornwall.

Pte. R. J. Sharnan

Private R. J. Sharnan, reported to have died of wounds April 11th, after the battle of Vimy Ridge, was the son of Mr. and Mrs. T. E. Sharnan, of Heatherdown, Alberta. He was born September 9th, in Bottineau county, North Dakota, and came to Alberta in 1902 with his parents. He enlisted December 15th, 1915. After spending a term in Alberta College, he was engaged in farming when he responded to the call of the Empire.

Pte. H. Evans

Private Harry Evans, of Red Deer, is another University man whose name goes on the honor roll. He was born in Burton-on-Trent, England, April 21st, 1887, and came to Red Deer with his parents in 1892. After taking his

question a delicate one. He assured the House that everything done so far had been under the direction and guidance of the British admiralty and the Imperial Munitions Board. The shipyards of the Dominion, he said, were busy. Everything possible had been done to stimulate the shipbuilding industry. While unable to go into details, the acting prime minister also assured the house that steps were being taken to deal with submarine attacks on the Canadian coast.

"J. G. Turfitt, Assistant, asked the acting prime minister whether the new United States war tariff would affect wheat and wheat products.

"Sir George Foster replied that this tariff had not yet become law, and therefore he could not give any information on the matter.

Interior Dept. Overruled.
The House then went into committee of supply on interior estimates. Hon. Frank Oliver declared that conditions in the west at the present time did not warrant the expenditure asked for in connection with the outdoor service. He thought that the present staff was overmanned.

Hon. Dr. W. J. Roche contended that 150 of the employees of this branch had gone to the front and many of them had not been replaced. Some of those were drawing their original pay. The average salary in the outside service was \$1,000 per year, which in view of the present high cost of living was not too large. In fact the question of increasing the salaries of the outside service was under consideration.

Men Fit For Military Service.
Survey estimates approximately three quarters of a million dollars were then considered. Mr. Oliver contended that the men engaged on the survey work were identical in age and qualifications to the men qualified for active service. He could not see how the government was justified in pressing surveys at a time when settlement was not urgent at the expense of men required for military service.

Dr. Roche declared that the estimate for this work had been cut down \$200,000. Instructions had been issued that wherever possible returned soldiers should be employed.

Dr. Roche said there was a large demand for land in Northern Alberta, and that in consequence surveys were necessary.

Taxation of H. B. Land.
Hon. Mr. Oliver said he had received a communication from the Alberta Association of Municipalities in regard to the freedom from taxation of Hudson's Bay land. He asked the minister to make a statement in regard to this question.

Dr. Roche said that he had received a communication from Mr. Oliver some time ago in regard to this matter which is now being taken up by the department. He promised to supply all available information later on.

DEATH SENTENCE FOR SPAIN BOY TO BE COMMUTED

**Sixteen Year Old Murderer In
Manitoba Is To Escape
Gallows.**

OTTAWA, May 11.—John Spain, the 16 year old boy who was to have been hanged Tuesday next for the murder of a farmer named Vincent and his wife at Stonewall, Man., will escape the gallows, it was learned tonight. The youth of the boy is the only extenuating circumstance, as never in Great Britain of Canada has the death sentence been inflicted on such a young criminal. The boy's father is at the front. There have been many petitions, and the matter has been discussed in the house of commons.

ANTI-UNIONISTS MEET

TORONTO, May 11.—A meeting called by Presbyterians opposed to church union with the communists at present was held this evening in Knox church.

WALTER B. CHAMP, director Hamilton Bridge Works Company, past president Hamilton Board of Trade.

MERCURY TOUCHES MIDSUMMER POINT; SMALL TORNADO PLAYS HAVOC IN THE EARLY EVENING

Thermometer Registered 79 Degrees In Afternoon and Citizens Don Midsommer Attire—Amateur Horticulturalists Dripping With Perspiration Do Their First Gardening—Rain Threatened in Evening but Only Wind Storm Came.

Yesterday was the hottest day of the year for Edmonton. Seventy-nine degrees in the shade was the official figure registered at 2 o'clock in the afternoon and at 5 o'clock the glass was only one degree lower than the maximum. Seventy-nine is pretty warm even in midsummer, and in early May it made the city swelter. It marked the climax of an exceptionally torrid week, the high temperature mark previously having been a seventy-six, scored by Old Sol on Thursday.

With a mild, hot breeze blowing from the south and the sun on the job all day in a cloudless sky Edmontonians early in the day realized that they were in for it. Cautious citizens who were sticking to their winter flannels soon found the said flannels sticking to them with an ardent attachment that nothing could break. Pedestrians unbuckled their coats and ske their vests as they sought the shady side of the street and slowed down to a rate of speed compatible with the meteorological conditions. Straw hats blossomed forth like roses in June, brilliant new affairs, fresh from the shops and hanging over from yesterday's hot weather, were economy, alike being side by side.

The ladies appeared in white frilly things that marked the coming of the summer. Gauzy hostery, flopping big hats and talcum powder were in evidence. Ice cream and two-per-cent displaced beef steak pie and hot coffee in popular appreciation.

In the garden lots amateur horticulturalists dripped perspiration and seeds together while the early mosquitoes, with an appetite whetted to razor keenness by a winter's abstinence, sought their gore. The first house fly invaded immaculate kitchens. Butter softened to a swimming mass. There was a cry for refrigeration and for ice. Yes, it was indeed a hot day.

Towards evening a line of heavy black clouds banked up toward the west and north. The stage seemed set for a thunderstorm. A few big drops of rain fell and stormy folk got their umbrellas. But it was a false alarm and the only manifestation was the swooping through the town about half past 3 o'clock of a young tornado which blew dust in gritty clouds before it, whirled loose paper high above the topmost chimneys, pulled out a shingle or two here and there, sent masculine hats flying in all directions, and feminine skirts where—well, where the dressmakers had not planned—and played other rough pranks. A twelve-foot plate glass window in James Ramsey Ltd.'s store blew in with a crash, but so far as reported, no other serious damage was done by the wind storm which subsided as quickly as it rose.

At 11:30 the official weather man said, before turning in for the night that his thermometer registered 58 degrees above zero. The sky was clear and there was no indication that today would be appreciably cooler.

MINERS AWAIT OTTAWA REPLY

Government Is Urged To Talk Over Differences and Arrange Settlement.

(By Morning Bulletin Leased Wire) CALGARY, May 11.—Three thousand miners throughout District 18 are anxiously waiting to hear from Hon. T. W. Crothers, minister of labor, for the Dominion, in answer to their request that the government take over the differences and arrange a settlement, which will give the miners their demands.

One phase of the convention here is the international aspect of the mine situation. The convention leaders are in close touch with the international organization at Indianapolis, and with the miners of Wyoming and Montana.

Because of the fact that the miners in other fields to the south have been granted substantial increases, there is agitation looking toward a strengthening of their demands rather than the making of concessions.

Mr. Rees, the miners' representative, was elected here today to go to Indianapolis to confer with the international executive of the United Mine Workers to seek advice about calling a general strike.

The enlistment of thousands of experienced miners in the United States has given the international officers, he said, a winning hand over the operators in all fields.

ALBERTA MEN IN CASUALTY LISTS

(Continued from Page One.)

high school course in that city he attended the University of Alberta. After leaving that institution, he taught the Springfield School, in the Red Deer district, for two years with great success. He enlisted with a University battalion in April, 1916, and was wounded last month in the Vimy Ridge battle.

Pte. Fred Jenkins

Private Fred Jenkins, of Lacombe, whose name appears in the recent casualty lists as having been wounded, is a brother of Lance-Corporal A. J. Jenkins, who was wounded last September and is still in hospital from the effects of his injuries. Both boys are the sons of Mr. and Mrs. E. H. Jenkins, of Lacombe. Private Fred Jenkins, who was born in the town of Reading, Berkshire, England, was brought out to Canada in 1901. Previous to enlisting he worked on his father's farm. He joined a Central Alberta battalion at Sarcee Camp, September 18th, 1916, and was wounded April 11th, this year, suffering, according to the official telegram, from a gunshot wound in the ear.

Lance-Corporal A. J. Jenkins is a native of Potter's Bar, Middlesex, England, since made famous by the destruction of a raiding Zeppelin. Previous to enlisting in a mounted rifles unit in January, 1915, he followed the trade of a carpenter. He was wounded last September, suffering from a gunshot wound in the left thigh and is still in hospital at Ramsgate, England, from its effects.

RECRUITING IS DISCUSSED

Meeting At Macdonald Hotel Is Slimly Attended Because Of Holiday.

On account of its being a holiday the meeting called to discuss recruiting yesterday at the Macdonald hotel, was slimly attended.

Major Hopkins, commanding the 19th Alberta Dragoons, has suggested a special week, for the purpose of stimulating recruiting in order to make good the wastage caused in the Canadian forces by the severe fighting now going on on the western front. Mrs. Nellie McClung and Mrs. W. J. Boucher emphasized this necessity. Pte. Harold Peat declared that conscription was the only way of meeting the situation. The gathering discussed the matter in an informal way but took no definite action.

Obituary

DUNCAN M'PHADEN, OLD-TIMER, IS DEAD

With the death on Thursday of Mr. Duncan McPhaden, of 1084 31st ave., a resident of Edmonton for fifteen years, has passed away. Deceased came to this city from Collingwood, Ontario, and has lived a retired life ever since. He was 85 years of age and is mourned by a large number of friends both in Edmonton and Collingwood, Ont.

A widow, three sons and three daughters survive him. The sons are: J. R. McPhaden, of Edmonton; Alex. McPhaden, of Chicago, U.S.A.; and William of Vancouver, Washington, U.S.A.; and the daughters are: Mrs. H. Weir, of Edmonton; Mrs. P. H. Facett, of Ray, Alberta; and Mrs. N. Irwin, of Portland, Oregon.

The funeral will take place from his late residence on Saturday at 2 p.m. Interment will be in Mount Pleasant cemetery. The arrangements are in the hands of Wainwright and Jackson, undertakers.

DEATH OF MRS. GOURLAY

While two of her sons are fighting in France, Mrs. Agnes Gourlay, 9648 106th street, died Friday morning after a lingering illness. She was 84 years of age and the widow of the late A. H. Gourlay.

She is survived by Archie C. and W. A. Gourlay, who are the soldiers Alexander Gourlay, of Sydney, Australia; Thos. A. Gourlay, of the Civic Hotel, Edmonton; and Margaret Gourlay, of the National Trust Co., Ltd., and Mrs. C. T. Pinfold, 10627 99th avenue, Edmonton.

The funeral will take place on Sunday at 2:30 p.m. at her late residence. A. V. Dunham, Ltd., have charge of the funeral arrangements.

MRS. BURNES DEAD

Mrs. Flora Burnes, 38, beloved wife of W. Burnes, died at the family residence, 110 Stony Plain road, on Thursday morning. The funeral will be held on Saturday at 2 p.m. from Connelly & McKinnley's chapel. Interment will be made at the Edmonton cemetery, Rev. Dr. McQueen officiating.

PEOPLE REALLY OWN RAILWAYS SAYS DRAYTON

Guarantees to Railways Have Amounted to Billion Dollars Up To Now

Toronto, May 11.—Sir Henry Drayton, chairman of the Board of Railway Commissioners of Canada, spoke before the Canadian Club today on "Aspects of the nationalization of railways." He declared the matter one of finance only, not of sentiment. The country's commitments on railway up to last June were \$968,451,737. Including additions it would mean in round figures one billion dollars. He opened with a consideration of what nationalization would mean to the country. Ever since confederation there had been expended or accumulated on railway account \$968,451,737. Even that was not the whole story. It did not include the value of the unsold lands, which could be put at \$100,000,000 more.

One Billion Dollars

"We are safe in looking at the country's commitments and investments in railroads with guarantees at one billion dollars," he said. This enormous sum Sir Henry compared to "The value of two Toronto's." The situation was really serious and called for the best attention. In the total he gave were land investments of the national trancontinental at \$169,000,000; the Intercolonial at \$116,000,000; and the Prince Edward Island Railway, \$9,000,000. These were in railways which the people already owned. Deducting those figures, it meant that \$790,000,000 of the people's money had gone into private railway companies and more, much more, is required.

Exclude C.P.R.

There was no ground, he said, for the inclusion of the well-managed Canadian Pacific in the list of railways whose nationalization was recommended. Speaking of the other roads he said:

"The most urgent necessity, in better and more efficient transportation. The most pressing factors that have taken place are attributable to the Grand Trunk and to the Canadian Northern. It is a common ground that both systems urgently need many more locomotives and many more freight cars. No such case is made out against the Canadian Pacific. "Insofar as the other systems go, the conditions are reversed. Service is poor. Transportation failures have taken place, and no company funds are available to make them good."

HOMESTEADER'S CHARRED BODY FOUND IN SHACK

People of Entwistle Suspect Foul Play—Body of Victim Not Identified

What is believed by the citizens of Entwistle to be a case of murder was unearthed on Wednesday when it was found that a shack occupied by Peter Caspar and a man named Praus, between Magnolia and Matthews Crossings, had been burned down and the charred remains of a man and a dog found in the ruins. The man's body was so burned that neighbors have been unable to identify it.

The two men had been working this homestead for the past five or six years and had always been on good terms with each other. It was stated to the Bulletin, however, people of the locality are definite in stating that one of the men has been out of his mind for some time.

The provincial police are investigating the matter and Dr. Forin, chief coroner will go out to the scene today.

SHORTAGE OF LINIMENT MAY BE LOOKED FOR

Prominent Business Men of City Members of Rotary Club Try Farming

Edmonton need not worry about fresh vegetables this summer for the members of the Edmonton Rotary club attended to that subject in right royal manner Friday morning. A real taste of back-breaking work in an extremely hot sun was experienced by some of the most prominent business men of the city when they planted a little more than an acre of vegetables in a plot running between 117th and 118th streets on Jasper avenue. Druggists may be prepared for a run on their liniment stock tonight or tomorrow morning for planting potatoes, hoeing and planting seed is not considered a light job. The members of the club were on the job bright and early with coats and vests off and worked constantly during the entire morning. Washing, bathing and blistering arms and necks, the sidewalk was well decorated with ginger ale bottles and glasses, chiefly empty ones, long before noon. Of course ginger ale would not support a healthy bunch of business men at such an invigorating exercise, so a couple of crates of first-class oranges were put to good use.

Those present when the Bulletin representative visited the scene were: Messrs. W. J. Thompson, J. C. Wilson, Carroll Wilson, Ltd.; Freeman Stanley, of Stanley & Jackson; Sam Johnston, of Hogg & Johnson; E. Chauvin, of McGeorge, Chauvin and Townshend; John MacDonald, manager of D. R. Fraser & Co.; Charlie Hopburn, of the University of Alberta; L. Line, druggist; Harry Jackson, of Jackson Bros.; C. W. L. MacKellvie, of the Brown Fruit Co.; S. J. McCompton, of Hogg & Johnson; E. MacLaren, business manager of the Journal; E. Kennedy, of Young & Kennedy; R. S. Thompson, of the Sun Life Insurance Co.; J. A. Boyd, of the Sun Life Insurance Co.; G. T. P. McQuinn, of the Sun Life Insurance Co.; pastor First Presbyterian church; Matthew Esdale, of the Esdale Press, Ltd.; John Gilchrist, of the Esdale Press, Ltd.; C. E. Darby, of R. G. Dun & Co.; W. R. Bottom, of Revillon Wholesale Ltd.; V. Henderson, of the Macdonald hotel; F. G. McDermid, of McDermid & Bering Co.; E. J. Dalton, of the Office Specialty; Dr. H. P. Whittaker, dentist; James Helms, of Clark Bros. & Co., Ltd.; E. P. Hall, of Ames, Holden, Hamilton, Ltd.; J. L. Bond, of the Canadian Consolidated Rubber Co.; A. W. Challen, of the MacLachlan Carriage, Ltd.; J. L. Tipp, of the MacLachlan Carriage, Ltd.; Norman Smith, Haulbeck Smith Co.; J. A. McDougall, of McDougall & Secord, Ltd.; H. C. Anderson, Twin City Coal Co.; W. G. Carpenter, Secretary of Public Schools; W. J. Green, secretary Y.M.C.A.

H. W. WOOD IN EAST

H. W. Wood, president of the United Farmers of Alberta, will not be able to address the united church service which was proposed to be held at Clover Bar Methodist church, Sunday, May 27th. The committee have not yet completed their arrangements for another speaker for the service which will probably be held anyway on the U.F.A. Sunday though all concerned regret very much that President Wood will be unable to attend.

The local secretary received a letter on Thursday from Mr. Wood saying he would not be able to come for he had to be in Montreal at that time.

GRAY HAIR

Dr. Tremaine's Natural Hair Restorative, used as directed, is guaranteed to restore gray hair to its natural color or money refunded. Positively not a dye and non-injurious. Price, \$1.00, post paid. Write Tremaine Supply Co., Toronto, Ont. On sale in Edmonton at J. F. McCallum's Drug Store, 10940 Jasper Avenue.

STOCK SOLD AT PRISON FARM

With Large Attendance of Buyers \$3,789 Is Realized At Auction.

The success that is to be found in the stock-raising industry was illustrated by the excellent prices realized at the sale of stock on the City Prison Farm held on Friday afternoon.

The total amount brought in was \$3,789. There were ten buyers out of a good attendance. The largest purchaser was the late superintendent, Mr. Lyons, who will now work the farm himself, and whose bids in all totaled \$1,350.25, while the amount paid by the smallest bidder was \$60. Mayor Henry, and some of the aldermen were present and much gratified at the success of the sale. Auctioneer Bob Smith put in some of his best work and H. English, secretary to the commissioners, made him a very efficient clerk.

The highest price paid for a cow was \$101, while others realized from \$55 upwards, steers were sold at \$70 to \$72, a heifer brought \$75, three calves \$109.50, and a yearling bull \$40.

Seven horses were sold at prices from \$121 to \$215. "Jack," the old fire department servant, fetched \$11. Four sows went at from \$60 to \$67, and the poultry made \$18.25.

A.M.C. WILL GIVE DEMONSTRATIONS

First Aid Appliances Will Be Shown In H. B. Windows Next Week.

Members of the Army Medical Corps recruiting staff will give a demonstration in First Aid appliances each day and evening for a week beginning Monday, May 14th in the windows of the store of the Hudson Bay company. Displays of a like nature have been carried on for some time in Calgary, drawing large crowds of interested spectators. Sergeant I. V. Hall has charge of recruiting for this corps in Alberta and is at present in this city making the necessary arrangements for this instructive innovation.

FIRE AT BONNIE DOON.

A small shed was burned Friday afternoon as the result of a grass fire several blocks from the end of the car line in Bonnie Doon. The fire occurred during the middle of the afternoon and about the same time another branch of the fire department extinguished a grass fire several blocks north of Alberta avenue, which extended from 27th street to 33rd street. In the latter case a number of small buildings were in danger. The shed destroyed was the property of Pte. Perry, who left Edmonton recently with a Forestry draft.

ITCHY SALT RHEUM

Sometimes Called Eczema—Removed by Hood's Sarsaparilla

Salt rheum is one of the worst and unfortunately one of the most common of all diseases. How it reddens the skin, itches, oozes, crusts and scales, and then does this all over again! Sometimes it covers the whole body with inflamed, burning patches and causes intense suffering, which is commonly worse at night.

Local applications may do some good, but they cannot permanently relieve. The disease will continue to annoy, pain and perhaps agonize, until the blood has been purified and the general health improved. As your druggist for Hood's Sarsaparilla, the good old reliable family remedy. It has given perfect satisfaction in thousands of cases. Insist on having Hood's Sarsaparilla, for no substitutes acts like it. Get it today.

WHEAT CROP LESS OWING TO LATE SEASON; NO PROSPECTS OF LOWER PRICES FOR FLOUR

Geo. P. Admondson of Lake of Woods Milling Co., Reports Reduction in Acreage of 15 Per Cent. in Edmonton District, and 20 Per Cent. in Saskatoon District—Warm Weather of Past Few Days Brings Smiles to Farmers.

"There will be about a fifteen per cent. reduction in the wheat acreage of the Edmonton district, a twenty-five per cent. reduction in the Saskatoon district, and various points in Manitoba report a reduction of fifteen to twenty per cent, this owing mainly to the lateness in the season, and in some cases to poor seed," said Geo. L. Admondson of the Lake of the Woods Milling Co. Ltd., who has made a close study of conditions in western Canada. He adds that the decrease is partly offset by an increased acreage in oats, and other early ripening grains.

The seed bed is very good on the average, and the warm weather of the past few days if it continues will, owing to the great amount of moisture in the ground, greatly offset the late-ness of the seeding season, but, if we happen to experience any length of cold and rainy weather at this date the crop will be greatly endangered.

The farm help situation is coming along better than was expected under present conditions, and so-date the department of agriculture report having placed approximately 4852 from their labor bureau situated at Edmonton, Calgary and Lethbridge. The total of men supplied last year through the efforts of this department amounted to 19,987 men, which included soldiers released from the various battalions, situated at the above points.

Referring to the present high prices of flour, Mr. Admondson stated that, "At the moment there appeared to be no prospect of flour being cheaper, and that present high prices were due entirely to the prevailing high wheat prices, as mills are being compelled to purchase wheat daily against orders received, and, therefore, any fluctuations in the wheat markets would correspondingly affect flour prices."

POTATOES, THEY ARE EXPENSIVE IN ONT.

Ninety-Pound Sacks of Spuds Sold by Farmers Near Hamilton For \$6.00.

Produce prices are remarkably high at the Farmers' Market at Hamilton, Ontario, according to information received from Jas. Smith of South Edmonton, who says that the following prices were current at Hamilton on May 5th: Potatoes, 90-pound sack, \$5.50 to \$6.00; bushel, \$4.00; 11 quart basket, 1.50. Beans, 200 per bushel, 40c. Chickens and hens, \$2.00. Eggs, 35c to 40c per dozen. He adds that there will be a smaller acreage than usual in such crops this year in Ontario, owing to the shortage of labor and the high price of seed.

LIONEL PARKER GETS COMMISSION

Word was received in the city yesterday that Lionel Parker had completed his course in the cadet school in England and had been given a commission. He is to be attached to the 9th "Reserve" Brigade with a number of northern Alberta units.

APPEAL JUDGMENT.

Mr. Justice Scott reserved judgment in the Supreme Court on the action by Roy and Ethel McKinley, of Edmonton, to have a conviction quashed that was registered against them under the Liquor Act. They were fined \$50 each by Mr. Fugher, J.P., on a charge of having liquor in their possession for sale. Geo. Masie appeared for the appellant and J. F. Lynburn for the crown.

PERSONALS, MEETINGS, CLUB ACTIVITIES, WEDDINGS AND SOCIAL EVENTS

In connection with the drawing of the Returned Soldier's club for the pillow presented by Mrs. Chapman, the prize was drawn by No. 48 ticket.

Miss Donna McManus left Thursday evening for Wetaskiwin to spend the week-end with friends.

Under the auspices of the Lloyd George Chapter there will be a tea for Returned Soldiers at the home of Mrs. John Kelly, 10033 107th street, on Saturday afternoon, from 3 to 6.

Mrs. Glanville has received word from her son, Arthur Tennyson Glanville, that, after a three months course at Oxford, he has successfully passed his examinations and is now Second Lieutenant in the Royal Flying Corps. Mr. Glanville left Edmonton with the

Princess Patricia, and was transferred as a cadet in the Royal Flying Corps.

Mrs. Fred. Bowerman, who has been suffering from the grippe this week, is much improved and almost restored to normal health.

Mrs. Robert Bradburn received a cable to the effect that Mr. Max Bradburn has received his discharge and sails for home shortly. His many friends will welcome him back.

Mr. and Mrs. J. H. Brittain sail for Australia in June, where Mr. Brittain has received an appointment from the Swift Canadian Co. of which he has been for some time a valuable employee. Mr. and Mrs. Brittain and family leave Tuesday for Wednesday of next week for Iowa to visit relatives prior to sailing on June 6th for their new home at Brisbane, Australia.

Mrs. Margaret McDonald and Mrs. R. M. Brown, who have been visiting at the coast for the past month, are expected home next week.

The hospital aid of the Royal Alexandra Hospital is providing a luncheon on Wednesday for the hospital association in All Saints' school room.

Knox Tennis Club has reorganized for the tennis season and the courts are being put into fine shape. Members will be admitted on payment of the nominal fee.

Miss Vivian Butchart, daughter of Mrs. E. N. Butchart, who graduated last November from the hospital for sick children at Toronto, and also won a scholarship, finished her course on the 4th of May and is expected home shortly.

Mrs. Alice Pinckston McLean is expected in Edmonton sometime this summer on a visit to her family.

Mrs. Harold Peat entertained informally at the tea hour for her guest Mrs. Hawley of Hardisty on Friday afternoon. Mrs. Peat's home is one of the cozy kind that it is a most pleasurable event to be invited to. Mrs. Peat's aunt, Miss Watson, received with the hostess and Mrs. Hawley. The refreshments were delicious and it was with much regret that the guests found the hour of leaving so quickly come.

Excellent reports of the Lamont convention of the W. C. T. U. were read by the delegates. Mrs. M. Young at the Norwood W. C. T. U. meeting which was held on Friday afternoon. This was a regular meeting and well attended. The officers were in their respective places and the usual business transacted. The Local Council of Women's agenda was discussed and this with the convention reports made a very full and interesting afternoon.

Mrs. W. E. Nobles was the speaker on the subject of "The Abolition of Capital Punishment," speaking strongly in favor of abolition, at the meeting of the Strathcona W. C. T. U. Friday afternoon. The regular business was easily disposed of, and the decision of the meetings of the summer months and the subjects for the future.

Thankful Mothers

Mothers who have once used Baby's Own Tablets for their little ones are always strong in their praise of this medicine. Among them is Mrs. Marcelle Boudreau, Mizonette, N.B., who writes: "Baby's Own Tablets are the best medicine I know of for little ones. I am very thankful for what they have done for my children." The Tablets regulate the bowels and stomach; cure constipation and indigestion; break up colds and simple fevers; in fact they cure all the minor ills of little ones. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

ture meetings. The agenda of the Local Council of Women was duly discussed and then Mrs. Nobles went thoroughly into the subject aforementioned and gave a very forceful and lucid address. Arguments were presented pro and con and startling statistics given. The audience was most interested and carried away many things for thought.

A very enjoyable concert and luncheon was given at the Returned Soldiers' Club last night, under the auspices of the Women's Volunteer Reserve. The program included: Piano solo, Mrs. Beveridge; reading, Comrade Langton; song, Comrade Church; recitation, Miss Ivy Hughes; Highland Fling by Corp. Bevan, of W.V.R.; song, Miss McMillan (encore); sailor's hornpipe, Lieut. Reichelt, of W.V.R.; recitation, Miss Ivy Hughes; song, Miss McMillan. Mrs. Beveridge was the accompanist, and Secretary Reinhardt was chairman.

The King's Messenger class of the MacDonald Baptist church entertained their friends to supper last evening in the school room, the occasion being the departure of one of the members, Miss Anita Fey, to California. Speeches were made by Mr. Kelsey on behalf of the choir, Mr. Hughes, on behalf of the Young People's Society, Mr. McIntyre, on behalf of the Sunday school and Rev. Mr. Thompson, on behalf of the church. Mrs. Greenwood made the presentation of a Bible on behalf of the class. The evening was spent with games and singing and closed with the singing of Auld Lang Syne.

At 2:30 o'clock this afternoon a "Grand Concert Canadian" will be given in the Separate School Hall for the special entertainment of children. The program will include an operetta "La Duchesse Anne," a comedy, entitled "La Vieille Maison" and a scene, "Le Petit Dore," written for the occasion by Madame Dr. Boulanger (Dan L'Ombre), which will be presented by Masters Martin and Wilfrid Garlepy. English numbers will be given for English speaking children. Candles and maple sugar will be distributed to the youngsters. The proceeds of the concert are to be devoted to the French circulating library. Next Thursday the concert will be repeated for adults, the library again being the beneficiary.

Mrs. A. S. Ramsey had hosts of callers at her reception on Friday afternoon. The day was an ideal one for any occasion and "society" in its best frock wended its way to the very pretty home of Mrs. Ramsey on 123rd street. Mrs. James Ramsey received with the hostess and the little daughter of the house in many who tended the door. The gold and brown drawing room was artistically arranged with here and there a tall stately half opened rose of delicate hue, in crystal vases. The tea room, which is decorated in the delicate tones, was delightfully enhanced by deep full brown roses of a deep glowing pink in a cut glass vase on a mirror base which formed the appropriate centerpiece for the highly polished mahogany tea table. Pink shaded candles and dainty appointments completed a pleasing picture. Mrs. R. G. Stewart dispensed hospitalities and her assistants were Mrs. Smith, a daughter of Mrs. James Ramsey, Miss Johnson, Miss Ethel Emery and Miss Helen Neff. Mrs. Chas. Reed assisted in the drawing room.

The concert at the club rooms of the Great War Veterans next Monday night has been arranged by Hayden Morris and Ross Shepard, and promises to be of exceptional interest. Miss Kate Hamilton, Miss Jean Plante, L. Melins, A. S. McGougan and Helen Morris will perform solo and duets. Quartettes and trios for male voices, and a sketch entitled "A Case of Suspicion," will be included in the program.

On Wednesday afternoon of this week a very important event took place for the scholars of McKay avenue school. The work in military and physical training at this school was inspected by Major Hogbin. The work of this nature is carried on all over Canada under arrangement made by the Strathcona Trust with the governments of the provinces and Principal P. S. Bailey can feel very proud of the result of the inspection. The parents were invited to be present in the auditorium where the girls, in charge of Miss Burger gave a very creditable exhibition of gymnastic exercises. This was followed by fancy marching, The May Pole Dance, Scottish and Italian folk dances. Miss Burger deserves special mention for

Enemies of Tea

If tea is left open near oranges, soap, spices, matches, etc., the tea will take on the flavor of any of these articles.

In fact, tea absorbs odors as readily as does butter. This is because it becomes so dry and brittle in passing through the firing or drying oven that it becomes very sensitive to the moisture and odors in the air.

When loose in the chest or bin or bag it quickly loses flavor and strength. Tastes flat, weak, old; dear at any price.

This is why Red Rose is never sold in bulk—but always in sealed packages. The armour that keeps our dust and odors and keeps in the flavor and strength.

The price printed on the package protects you against overcharge. It is the lowest price for which a tea of Red Rose quality can be sold—a price which allows the grocer only a fair profit.

You will enjoy the distinctive flavor and rich strength of Red Rose Tea. Try a package.

Sold Only

Red Rose crushed coffee is as generously good as Red Rose Tea and just as easy to make.

the excellent manner in which these exercises were carried out. They reflect untiring efforts on her part. The cadet companies received the inspecting officer on McKay avenue in front of the school where a large crowd of interested spectators had gathered, mainly composed of parents and children. The cadets were examined in squad, rifle, company and extended order drills and also signalling and first aid. From a spectator's point of view the manoeuvres of the boys were very fine and in the Major's speech to them he congratulated them on their work and especially the officers. It certainly was an inspiring sight. Afterwards the boys and girls who took part were given a treat of ice cream and cake by the teachers who also offered afternoon tea to the parents and others who attended. This

was served most delightfully in the kindergarten room.

The St. Luke's Social and Dramatic Club have been kept very busy of late. Two weeks ago they gave two fine performances in their social hall, Highland Park. The two amusing "Freezing a Mother-in-law" and "Poor Pillsoddy" drew a crowded house on that occasion, and the plays were so greatly enjoyed by those present that a request was made for a "repeat order."

On Wednesday evening of this week the plays were repeated in the same building and a good number turned out, the plays being successful given. The following evening the players ended up the season by giving their performances at

St. John's church, Allendale. The building was well filled by a most appreciative audience and it was undoubtedly one of the best performances of the series.

"Poor Pilloccody" took well, causing great laughter from first to last. J. Jeanes as Capt. O'Scuttle acted his part in a most capable manner, being ably assisted by Miss M. Dixon, who took the part of "Mrs. Pilloccody," was as funny as ever, and "Sarah," Mrs. L. G. Pepper, again greatly pleased all present by her successful rendering of the part.

"Freezing a Mother-in-law" also fairly tickled the palates of all present. The acting of Mrs. Peterson as mother-in-law, J. Boucher as the henpecked husband, and of H. P. Tucker as American inventor, causing much applause. The minor parts were also well taken and the club is to be congratulated on the display of such fine talent.

Political Questions Before Business Women

A meeting of business women was held last night to discuss a number of public questions of special interest in view of the approaching election. The meeting was non-partisan in character and was addressed by Gerald V. Pelton on the subject, "Man-made Laws." Mr. Pelton traced man's gradual recognition of woman as a social equal. In former times he treated her solely on a sentimental basis, but in recent years had come to realize that whilst sentiment might be very acceptable to his wife and intimate friends, the majority of women were capable political beings like himself, and he had come to recognize them as citizens. In Alberta, the woman is actually in a slightly better position than man. Not only has she the franchise, but is eligible for every office, while in Ontario, she has the vote, but cannot sit in the legislature, or fill offices other than those specially named.

Without woman's assistance, man has passed a number of laws in this province, before giving her the suffrage, which had elevated woman to a very high plane, often without corresponding privileges to man. Her

reputation is protected by the libel and slander act, and the father of children born out of wedlock is made liable for their support. In this regard, however, there is room for improvement by enactment similar to that in Nova Scotia, by which a father who seeks to escape his liability may be at once arrested and brought before the court.

Woman has the same property rights as man and whilst a married woman is given an interest in her husband's property, he has no corresponding interest in hers.

If a man treats his wife unjustly by will, she may apply to the court which may disregard the will and allow her a lump sum or such portion of her husband's property as may be just. The wife however, is not obliged to recognize her husband by will or otherwise as regards her property.

By the Dower act passed this year, the wife has a life interest in the homestead property, which after the death of the husband covers the whole property and not merely an undivided interest as in the old eastern Dower acts.

Mr. Pelton described the Factory act and spoke of the valuable work done among neglected children and wayward women, and praised the work of the women's court. Whilst often women magistrates were more severe on other women than a man would be, and perhaps less logical in coming to their conclusions, they are doing wonderful social service and reform work which the public hears little about.

All this important legislation regarding women, and the regulations respecting truancy, placing children in homes instead of orphan asylums, children's courts including the old Egyptian custom of punishing parents for delinquency of children due to their neglect, and other acts protecting children, were passed by male legislators, and they do man credit. Realizing, however, that with woman's aid, he might do even better, he gives her the same political rights as himself in addition to the superior privileges already bestowed upon her.

A very interesting discussion followed and a number of questions were answered. As a number of ladies who intended attending were prevented from doing so by the storm, it was decided not to form a society until the next meeting, when a non-partisan association for the discussion of political questions will likely be formed.

Say Egg-O

Best by Test

Popular Concerts Close on Sunday

The Edmonton Orchestra, whose efforts during the past few years has been to present to the public the best in music, will bring to a close a season which has demanded more effort on the part of the organization, than during any previous season. The programs have included a large proportion of the greater works of modern composers in addition to the works of the great masters that have been presented to Edmonton audiences hitherto; and as a fitting close to a successful (musically) season, a program consisting of numbers culled from composers representing all the principal schools from English to Russian has been selected. The soloists for Sunday evening next are: Mr. Roy Royal, baritone; Mr. Wm. G. Strachan, flute, and Mr. Harry Hassell, cello; the two latter to play a duet, viz: "Serenade," by Tili.

The program in its entirety follows: Lavalley Charles—Chant Nationale O' Canada. Wagner Richard—Excerpts from "Mastersinger von Nurnberg." Leoncavallo—Prologue from "T. Puccini." Tchaikowsky Peter—Romance in F. Tili—Serenade For Flute and Cello. Dvorak Anton—Two Slavonic Dances. Massenet Jules—"Elegie" for Baritone. Elgar Edward—Two Military Marches: "Pomp and Circumstance." God Save the King.

SAYS GENERAL DIAZ KILLED

LONDON, May 11.—The board of trade report for April shows that imports increased to \$83,000. Grain, meats and non-durable food increased \$11,000,000 and cotton \$2,000,000, but owing to restrictions on the importation of non-essentials there was a decrease of nearly \$5,000,000 in manufactured articles.

The Women's Exchange

TODAY'S INQUIRIES.

1. How should eggplant be prepared for cooking?
2. What will make poached eggs tender and digestible?
3. In laying a matting should it be tacked at once?
4. Should children in the family be permitted to come to a formal dinner?
5. What exercises can be taken to develop the chest?
6. What are setting-up exercises?

ANSWERS TO YESTERDAY'S INQUIRIES.

1. A one-lb. steak should not be allowed to broil longer than eight minutes; five or six are often sufficient.
2. Albumen begins to coagulate at 134 degrees Fahrenheit.
3. The parings and cores from apples can be utilized in making jelly.
4. Wiping the face with cold cream, followed by a thick coating of powder, will partially prevent sunburn when no veil can be worn.
5. The bridegroom and best man wait in the vestry or an alcove near the church before the wedding ceremony.
6. The engagement ring should be slipped on after the wedding ring and always worn on the outside to act as a guard to the other.

"Mothers of France" To Be Shown Here Shortly

"Mothers of France" will be shown the entire week of May 25th at the Empress theatre. Of all the excellent pictures that have been shown in Edmonton this in its line is exceptional. The characters are well done and Madam Sarah Bernhardt in the stellar role as Madam Marsay needs no comment. The others are equally as good. The story is written by a noted modern French writer and has been authorized by the civil and military authorities of France. It is a picture which no one can afford to miss. The story is of course of the present great war and of how it has affected the homes and what it has done to the noble French mothers. The story is symbolic and is true of all mothers effected by the war, not alone the mothers of France. The interpenetration and ties are most artistically woven up and the music is really beautiful. The scenes, which are taken in France, are most picturesque, especially the view of chateau, the home of Madam Marsay and her husband and son who each gives his life for France. The view of the Cathedral at Rheims barricaded with and bags is most impressive. The trench scenes and other battle pictures are actual and very near the front. The story, needless to say, is very dramatic and a pathetic love story runs through it. When Madam Marsay learns that her boy is wounded and thought to be dying she goes right to the trenches and nothing daunted persists in finding him, though she finds herself under fire. She finally reaches him only to find him dead in her arms. She goes back and takes up the burden of life, and only to find that her husband has been killed, and learns of friends and relatives having fallen on every side. With the true heart of a mother the rest of her days are spent in doing everything in her power to bind up broken limbs and hearts.

CUPID'S COURT

Keech—Bagnall

A wedding was solemnized at the home of Mr. George W. Bagnall, 9519 106th ave., on Wednesday, at 7 p.m., when the daughter, Isabella, was united in marriage to Harold Leroy Keech, Rev. H. J. Keith, B.D., M.A., officiated. Only the members of the family were present. A delicious supper was served at the close of the ceremony.

COMING EVENTS

Announcement of meetings (fraternal, religious, etc.), recitals and social gatherings at which no admission fee is charged, collected, taken or articles sold, will be published under this heading free of charge. Readers are invited to send to the office or phone the News Editor, No. 824, information concerning events of this nature. Announcements of meetings, etc., at which an admission fee is charged, collection taken or articles sold will be inserted at 10 cents per cent line.

Mothers' Day will be specially recognized at both services in Westminster church on Sunday next. At the morning service Rev. Mr. Keith will conduct a service particularly for the children. He will be assisted by Junior Vespers and a Junior choir, Mrs. Nellie McClung will address the evening service, which will be in charge of the ladies, and specially for parents. The church will be suitably decorated for the occasion.

Sullivan's Academy of Dancing Club is holding refined dances Monday and Friday nights in the Academy hall, corner Isabelle and Fraser avenue. Pepin's five-piece orchestra. Large electric fans in use.

The St. Andrew's W. A. Rummage Sale will take place at 19373 97th street on Friday, May 18th. 7145-114-p

Under the auspices of the Ladies' Aid of First Presbyterian church, Mrs. Pimlott is putting on a children's gymkana in the Assembly hall of MacKay avenue school, Thursday evening, May 17th. Admission 25 cents, children 15 cents.

Tomorrow at the general meeting of the St. Jean Baptist society, Arthur J. Cantin will give a lecture on "The Industrial Possibilities of Alberta." The program includes also piano duo, Mlle. Norreant; violin solo, Leo Lapierre; chorus, "La Marseillaise," by a group of Russian children; recitation, "Pourquoi?" Alberta Larue (6 years old); song, Carmen, Mlle Verreault.

On Monday evening at the Young Peoples' meeting of the MacDonald

Laugh When People Step On Your Feet

Try this yourself then pass it along to others. It works!

Ouch! Ouch! Ouch! This kind of rough talk will be heard less here in town if people troubled with corns will follow this simple advice of this Cincinnati authority, who claims that a few drops of a drug called frezone when applied to a tender, aching corn stops soreness at once, and soon the corn dries up and lifts right out without pain.

He says frezone is an ether compound which dries immediately and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce of frezone will cost very little at any drug store, but is sufficient to remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels.

Under the auspices of the Ladies' Aid of First Presbyterian church, Mrs. Pimlott is putting on a children's gymkana in the Assembly hall of MacKay avenue school, Thursday evening, May 17th. 7130

A First Aid class will begin on Monday next at the Y.M.C.A. at 8 p.m. in connection with the S.J.A.B. All desiring to avail themselves of this opportunity should attend.

News of the District

GLENGREACH
Bulletin Correspondence.
Mrs. Frizell is in the hospital in Edmonton where she has gone for an operation.

Mr. and Mrs. McKay of Barrhead took Sunday dinner with Grandma Burch.

The 262nd battalion which has gone to the front in the 13th brigade, contained quite a number from this district. Privates Jas. Ival Gus Smith, Bruce Jay and Sergeant Alf Goode.

Mrs. Paynton received word that her brother, Alf Saddler, was wounded at Vimy Ridge.

R. N. Frith, the Conservative candidate for Clearwater riding, was a Mellowdale caller on Friday night. Mr. F. L. Christie accompanied him. Spring has arrived at last for the mosquitoes are here, they can bite just as hard as formerly.

RED DEER TEUTON ADMITS CHANGES OF VICTORY GONE

Officer of Prussian Guard, Who Formerly Lived in Alberta, Captured

London, May 11.—The Canadian Associated Press correspondent has just returned from a ten days' visit in the Canadian lines in France, where every division was visited. Considerable time was spent with the railway construction corps and forestry battalions, and the correspondent also had the privilege of visiting the Canadian cavalry brigade, which, owing to its operating as a part of the Imperial forces, has received little individual attention in the press.

Among the prisoners taken by the Canadians lately was an officer of the Prussian Guard, a highly educated man, disposed to talk quite freely concerning the campaign on everything except the disposition of the German forces. Officer prisoners never will talk on this matter.

This captive was especially interesting because he had spent several years at Red Deer, Alta. He readily expressed his personal opinion that his countrymen were doomed to a bitter disappointment over the final result of the submarine campaign, and did not

Was Troubled With Shortness of Breath

When the heart becomes affected, there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness, and a weak, sinking, all-gone feeling of oppression and anxiety.

The nerves become unstrung, you dread to be alone, have a horror of society, start at the least noise and are generally fatigued.

On the first sign of the heart becoming weakened or the nerves unstrung, Milburn's Heart and Nerve Pills should be taken. They are just what you require at this time. They regulate and stimulate the heart, and strengthen and restore the whole nerve system.

MAJOR HOGBIN INSPECTING THE SCHOOL CADETS

Throughout this week and next the annual inspections of the public school cadets are being carried out by Major Hogbin. The girls also carry out their physical exercises and folk games.

The public school officials wish it to be understood that they issue a cordial invitation to the parents and others interested to attend these events, as they feel sure that many would like to witness the scholars at their work.

The remaining inspections are as follows:
H. A. Gray—Monday, May 14th, at 9:30 a.m.
Queen's avenue—Monday, May 14th, at 2:00 p.m.
Norwood—Tuesday, May 15th, at 9:30 a.m.
McCauley—Tuesday, May 15th, at 2:00 p.m.
Alex. Taylor—Wednesday, May 16th at 9:30 a.m.
Oliver—Wednesday, May 16th, at 2:00 p.m.
McDougall H. S.—Thursday, May 17th at 9:00 a.m.

"No matter how regular the Features—Beauty is dependent on the Complexion"

So said the Great Napoleon. He could have gone much further and said that a woman cannot be even attractive without a Good Complexion. Why are so many women careless, in this respect, when the remedy is so simple? SEELY'S DOUBLE CREAMS not only preserve a good complexion, but they provide a Good Complexion where it is lacking.

Send us a dollar and the name of your druggist and we will send you the pair of Creams—one an Old Cream for use at night and the other a Vanishing Cream for day use.

Send Us a Postal for FREE Beauty Book.

RACING SEASON IN CANADA WILL START TODAY

Spring Meeting Will Be Held At
Devonshire Park At
Windsor.

WINDSOR, Ont., May 11.—The Canadian racing season of 1917 will be ushered in Saturday afternoon, with the opening at the Devonshire Park track here of the spring meeting of the Western Racing Association. An attractive book has attracted to the meet here, which have never before been held on an independent track. The famous mare Panzarella, now owned by E. T. Colton, is at Devonshire, and will likely start in the handicap event, the feature, on Saturday. J. Keene has sent a string of horses from Kentucky, making his initial appearance on a Canadian track. There is also a good representation from several prominent Canadian stables. Over six hundred horses are on the course, and two carloads more are enroute from Kentucky. The Devonshire stables have been overtaxed, and a number of horses are being housed in the Kenilworth track stables near Devonshire. Seven races are on the card for tomorrow. The feature event, a one mile handicap—the fourth race on the card—for three year olds and up, carries a purse of \$1,000. There are two purses of \$600, three of \$700 and one of \$800.

PIMLICO RACES.

PIMLICO, May 11.—Summary:
First race, 4 1/2 furlongs—Peerless, won; African Arrow, 2nd; Lord Herbert, 3rd. Time, 1:56 1-5.
Second race, 2 miles—Moonlight II, won; Manslayer, 2nd; Reddest, 3rd. Time, 3:57 3-5.
Third race, mile—Kabo, won; Luck, 2nd; Napoleon, 3rd. Time, 1:43 2-5.
Fourth race, mile and a sixteenth—Bayberry Candle, won; Plutier Gold, 2nd; Judge Wingfield, 3rd. Time, 1:48 2-5.
Fifth race, 6 furlongs—Trial by Jury, won; The Decision, 2nd; Kewness, 3rd. Time, 1:14 4-5.
Sixth race, mile and 60 yards—Robert Bradley, won; Brooms Edge, 2nd; Star Finch, 3rd. Time, 1:45 3-5.
Seventh race, mile and 70 yards—Richard Langdon, won; Infidel, 2nd; Alston, 3rd. Time, 1:48 3-5.

Sporting Facts and Fancies

Chick Gandil, formerly of the Cleveland Indians, is getting quite popular with the Chicago fans. Everybody agrees that President Comiskey of the White Sox made a wise move when he acquired Chick, who is showing great promise.

You may say all you like about Sam Crawford, whose days in the outfield were ended a few weeks ago, but you can rely upon it, Sam will be there in a pinch.

All this talk about the Giants being at odds among themselves while presenting a united outer front is more or less bunk. Such rumors surround every team at various stages of the game and nine times out of ten they turn out to be nothing but talk.

President Tener's decision not to tolerate rowdism on the diamond is an excellent one. His recent punishment of Eddie Fitzpatrick, one of the Braves' substitute players, by a fine of \$50 and a suspension of five days, has had a salutary effect. Eddie has been behaving himself nicely ever since and may soon even get a stick of candy for being a good little boy.

Jimmy Callahan was the first manager in the big leagues to put his team down to the limit of players allowed after May 15, next Tuesday. Callahan had hard to get a proper make-up for his team and to get it going early. He kept on the lookout for players for a long time before he decided to close down. When the time came he retained the twenty-one men who will go through the season with the Pirates and released a whole drove of youngsters who did not show any particular promise of making good at this time.

May 12 has seen a long list of interesting events in the annals of the diamond. The first event of which we have a record is a sad one, for on that day in the year 1866, John J. Heiler, who helped found the Philadelphia Athletics, committed suicide in the City of Brotherly Love.

1898—The Phillies made eleven runs and eleven hits off Pitcher Foreman of New York in the fourth inning.

1895—Outfielder Bottenus of the Buffalo Eastern League made four home runs and a single in a championship game with Wilkes-barre, going to bat only five times.

1901—"Kitty" Grandfield of the Pirates went through a nine inning game with Cincinnati with only one put-out and one assist.

1909—Ty Cobb of Detroit batted in seven of the eleven runs scored by the Tigers against New York, making three singles and a triple off Wilson, a left handed pitcher.

1910—Chief Bender of the Philadelphia Athletics pitched a no-hit game against Cleveland, no player being left on bases.

Eddie Santry, the great little Chicago featherweight, fought his last battle on May 12, 1911. It was after the bout with Jack Ryan at South Bend that Santry decided to quit the ring. And he, quit a victor, for he knocked out Ryan in the fourth round of the contest. Santry went into business and prospered. He became an influential citizen and in 1914 was elected a member of the Illinois State Legislature, where he at all times championed the cause of boxing. Santry was born in Aurora, Ill., and is now about forty-two years old. He began boxing in Chicago some twenty years ago, and, although he failed to win a title, he was one of the most popular featherweights of his day. He defeated Tommy Dixon, Australian Billy Murphy, Oscar Gardner and many other clever boxers. He was defeated by George Dixon, Terry McGovern and Young Corbett. 1884—Charlie Mitchell defeated Billy Edwards in three rounds at New York. 1894—Frank Erno defeated George Siddons in six rounds at Buffalo. 1908—Al Kauffman defeated Joe Gaim in six rounds at Oakland. 1909—Knockout Brown defeated Young Wagner in six rounds at New York. 1910—Cyclone Johnny Thompson knocked out Pete Sullivan in nine rounds in Utah. 1910—Johnny Coulson outpointed Phil McGovern in ten rounds at New York. 1911—Paddy McFarland and Tommy Kilbane fought a ten round no-decision bout at Buffalo. 1911—Bob Moha defeated Terry Martin in six rounds at Milwaukee.

Special Commission Reports on Canadian Northern Railway System

EDWARD E. LOOMIS, President
Lehigh Valley Railroad Co.,
former Vice-President of the
Lackawanna & Western Railroad
Company.

JOHN W. PLATTEN, President
United States Mortgage & Trust
Company.

Owing to the importance of the report on the Canadian Northern Railway System submitted by the special Commission of American Railway and Banking experts, interest has centred on the personnel of the Commission and the reputation of the members have achieved in the United States.

Mr. Edward E. Loomis, now President of the Lehigh Valley Railroad, stands today one of the leading railway experts of the world. Previous to assuming the presidency of the Lehigh Valley Mr. Loomis had occupied prominent positions in other companies as early as 1899, when the Delaware, Lackawanna and Western Railway was under the management of President W. H. Truesdale, began its policy of reorganization. Mr. Loomis was one of the first selected by Mr. Truesdale to assume the active management of the vast coal interests of the company, producing even at that time about 5,000,000 tons per year. In 1902 Mr. Loomis was elected by the Board of Directors of the Lackawanna Railroad its senior Vice-President in charge not only of its coal interests, mining, transporting and selling, but also under Mr. Truesdale, and acting for him in his absence, of all the activities of the railroad company. It was this position he occupied when selected by the Board of Directors of the Lehigh Valley Railroad to assume the presidency of the Lehigh Valley Railroad Company succeeding E. B. Thomas, who became chairman of the Board.

Mr. John W. Platten, President of the United States Mortgage and Trust Company, has been identified with a number of the most important reorganizations that have been effected in the United States in the past few years. In banking and railway circles his work has been always regarded as of the highest character, and he has acted as chairman of the following reorganization committees, many of which have enabled him to use to greatest advantage the experience which he had previously obtained during many years of service with the Erie Railroad and afterwards with the Lehigh Valley. Mr. Platten was Chairman of the following committees:

Chicago & Eastern Illinois Railroad Company, Committee for Mortgage Debt; New Orleans, Mobile & Chicago Railroad Company, Bondholders' Committee; International Mercantile Marine Company, Common Stockholders' Committee; Missouri, Kansas & Oklahoma Railroad Company, Bondholders' Committee; Missouri, Kansas & Texas 1st Extension Mortgage Bondholders' Committee; International and Union Construction Companies, Stockholders' Committee; Kansas City Outer Belt & Electric Railroad Company, Bondholders' Committee.

Besides the above Mr. Platten has been associated as chairman with the following committees, now out of existence, but the efforts of which, in protecting the interests of the security holders, have been notably successful: M. Rumely Company Reorganization Committee; Southern Iron & Steel Company Bondholders' Committee; Atlanta & Charlotte Air Line Stockholders' Committee. The Commission, throughout its investigation, was assisted by Messrs. Coverdale & Colpitts, the well-known American railway engineers.

TODD'S LOSE TO CIVICS

Municipal Bowling Experts Take
Two From Their Opponents
Last Night.

At the Monarch Bowling alleys last night the Civics defeated Todds team by a score of 1858 to 1710, taking two out of three games. The individual scores were:

	Civics	Todds
J. Baird	105 118 135—378	
O. Norman	99 108 118—325	
A.B. MacDonald	131 166 117—414	
P. McKay	140 147 78—365	
D. Gordon	155 111 121—387	
Totals	631 650 587—1858	
R. Bruce	109 114 126—349	
W. Riehard	101 120 109—330	
J. O'Brien	88 185 116—391	
H. Gleason	116 107 122—345	
E. Critchley	109 113 128—350	
Totals	615 589 596—1710	

VICTORIA HIGH WINNERS FROM SEPARATE SCHOOL

Defeat Their Opponents by Score
of 13 to 8 on Friday
Afternoon.

Again the boys from the Victoria High school showed their class as baseball players when they defeated the team of the Separate High school on Friday afternoon. The score was 13 to 8 and in their last game they put it over the Technical bunch by much larger margin.

McKenzie, Thompson and Moorhouse of Victoria made things lively for the Separate school bunch. The stars for the latter team were F. O'Brien, P. Talbot and B. Foley.

Victoria's line-up was: Centre, Hall; pitcher, Moorhouse; first base, Phelps; second base, McKenzie; third base, K. Cox; short-stop, Thompson; left field, Harris; centre field, Watson, and right field, Alger.

BIGGEST STAKE IN AMERICA TO BE RUN TODAY

Kentucky Derby, Worth \$15,000
To Winner, Takes Place at
Churchill Downs.

LOUISVILLE, Ky., May 11.—Eighteen thoroughbreds are carded to start in the forty-third Kentucky Derby at Churchill Downs tomorrow. Only twelve, however, are regarded likely to go to the post. The race—for the richest stake in America for three-year-olds—is at a mile and a quarter. It will be worth approximately \$15,000 to the winner. The second horse will receive \$2,500, the third \$1,000, and the fourth will save the entrance and starting fees.

Of the probable starters, three important colts—War Star, Manister Tol and Omar Khayyam—are expected to compete with the best in America.

The east will depend upon Andrew Miller's "Ticket," Harry Payne, White's Rickett, and C. K. G. Billings Omar Khayyam, while the west will back Midway, Skeptic, Berlin and Cudgel to win.

The early favorite, A. K. Macomber's North Star III, which bowed a tendon, has been withdrawn. It is probable, however, the stable's entry Star Master, War Star and Star Garter, will go to the post carrying the bulk of the public's money. The only other entry carded to start is J. W. Schorr's Cudgel and Penrod. Harry Kelly, last year's two year old champion of the west, and his formidable opponent, Westy Wagon, also are missing from the entries.

GETS HONORARY DEGREE

SATURDAY, MAY 12, 1917.

According to Solicitor General Meighen, the Dominion Government has begun to tear up the G.T.P. tracks west of Edmonton without the formality even of passing an order-in-council. If the Ministers can do that in one place they can, of course, do it in another. The public, it seems, has the prerogative of being thankful that they did not decide to tear up the section between here and Winnipeg instead.

The city auditors warn us that "the time has arrived when it is absolutely necessary that some measures should be adopted to establish a closer relationship than at present exists between the actual realized revenue and the nominal revenue." Which in ordinary language may be taken to mean that the council must devise means to collect a larger proportion of the annual tax levy than has been coming in during recent years. The need of doing so will be readily admitted. The difficulty is that how to do it is less obvious.

In the B.C. inquiry, Dr. MacKenzie swears that he gave that fifteen thousand dollars to Attorney-General MacDonald, as alleged, but that it was not C.N.R. money; while counsel for the Attorney-General states that Mr. MacDonald did not open the package, but turned it over intact to the party campaign fund. The original charge, as indicated in press dispatches, was that Mr. MacDonald had kept the money himself, or used it for his own election expenses. From what has been already shown of their own relations to the Pacific Great Eastern interests, the opponents of the Brewster Government will be puzzled whether to wonder most that the late opposition let Dr. MacKenzie off so cheaply or that Mr. MacDonald let so much go by without collecting tribute.

The new war tax bill now before Congress is the most radical taxation measure with which the parliament of the Republic ever dealt, and probably one of the most radical any parliament ever considered as a preparatory measure for war. It is calculated to bring in something not far from two billion dollars per year revenue, and utilizes every means from the income tax to inland revenue to get money. The effect of such measure on trade and industry must be felt in every part of the country, and by everybody. It will bring home to our American friends in a personal and forceful way the fact that they are really at war, and at it in earnest. The bill is another of the innumerable signs that the United States Government does not intend to make any sort of "soft war" against the Huns, but will put the whole resources of the nation, human and other, into the fight with characteristic American enterprise.

It is announced that the G.T.P. tracks west of Edmonton are being torn up, to supply material for railway construction in France. When the proposal of doing something of the sort was mooted some months ago it was the C.N.R. tracks which were to be torn up. That proposal was allowed to peter out without explanation, leaving a very pronounced suspicion that MacKenzie & Mann had demanded a higher price for the rails than the Allied Governments would pay—and that the Canadian Government declined to use any sort of compulsion to make them cut the price. Now the announcement that it is the G.T.P. tracks which are being torn up. As by location and construction the G.T.P. line is in every respect better adapted for handling through traffic as part of a transcontinental system, something must have happened in the meantime to change the plan to that of tearing up the better instead of the poorer line.

In fact, several things have happened. The Drayton commission has recommended the nationalization of the railway systems of the country, with the exception of the C.P.R. Incidentally, the commission suggested that the stock of the C.N.R. and the G.T.P. was not worth anything, the inference being that the country would be justified in taking it for nothing. To this Sir William MacKenzie promptly and warmly responded that "the C.N.R. could 'take care of itself if given a 'chance'—just what he meant by 'chance' not being explained. This was followed up by a report from some railway and financial experts of the United States declaring that the C.N.R. has a future, and that, therefore, its stock has a prospective value. Now the G.T.P. tracks are being torn up, thus leaving the C.N.R. the only transcontinental line in Canada north of the C.P.R., and accordingly enhancing the value of its stock.

The significance of it all may be taken to be that Sir William does not intend to hand over the stock of the Canadian Northern for nothing, to the public or anybody else. If there is to be any nationalizing of his system it will have to be on a cash basis, with Sir William as one of the parties fixing the price. And the price of course goes up as the prospects of the C.N.R. are bettered by tearing up the tracks of its rival. The Ministers, we may rest assured, have been informed that Sir William is still in the land of the living, and doing "business as usual." They may not find the task of financing his enterprise from the public treasury very popular, and may angle for votes with projects for railway nationalization schemes if they want to, but when it comes to the point of making the dreams come true they will have to bring along the cheque book. Wherefore it is the G.T.P. tracks that are being torn up, not the C.N.R. What is the use of making and owning a Government if one does not use it in his business?

For Free List Howlers.
From Lebridge Herald.
"I do not believe that the placing of wheat and flour on the free list will operate to the disadvantage of Canadian railways or water transportation companies, or reduce their earnings to any appreciable extent, if at all."
This is the statement made by James Carruthers, president of the Canada Steamship Lines, and head of the grain exporting company of James Carruthers & Co., Ltd., in an article written by him appearing in the last Financial Post.
Calamity howlers who have been apprehensive lest Canada's railways degenerate into streaks of rust across the prairies with the advent of free wheat, will welcome Mr. Carruthers' statement.

THE KAISER AND THE CHANCELLOR.

The Kaiser and the Chancellor were talking words of peace. They went like anything to see Great Britain's fleet increase—
"Since victory is ours," they said, "This awful war must cease!"

"And now that they won't treat with us."

"And food is getting dear."
"Do you suppose," the Kaiser said, "We'll last another year?"
"I doubt it," said the Chancellor. And shed a bitter tear.

"The time has come," the Kaiser said, "When Germany must show why she must use her submarines. Alike on friend and foe. And why the neutrals have no rights. And where their ships should go."

"But wait a bit," the neutrals cried, "You'll find you go too fast. For some of us may fight with you—We all would if we dared!"
"Can't help it," said the Chancellor. "The card we play 's our last!"

"Oh, neutrals," said the Chancellor, "Our blockade has begun—We beg of you to keep away!"
But blockade there was none—The Allies got the submarines. And sank them one by one.
—Reuben Peterson, in Cartoons Magazine.

ANSWERS

This department does not pretend to be infallible. It will endeavor, however, to answer questions sent to it by the Bulletin to the best of its ability, reserving the right to ignore all that are trifling or of concern only to the questioner. To receive attention, every inquiry must bear the name and address of the questioner. This information is not wanted for publication, but as an evidence of good faith.

Licorice.

To the Bulletin—Where can one get licorice such as the tobacco factories use in the manufacture of plug chewing tobacco?

A. J. S. Morinville.

Licorice is said to be very scarce, but we are informed it can be obtained from Arthur Jarvis, 10229 104th st., Edmonton.

Mushroom Spawn.

To the Bulletin—I've got a brick of mushroom spawn; please oblige me by telling me how to grow it, as no directions were sent with the seed; also, how do you grow asparagus?

G. M. E., New Norway.

Ordinary mushrooms may be successfully grown in an equable temperature. Underground cellars or thick-walled rooms make admirable mushroom houses; but where a house is especially built for the purpose, it should be placed in the shade and should be provided with horizontal pipes in order to maintain a sufficient temperature in winter. Two-foot or three-foot beds may be arranged, one above the other, on shelves placed along both sides of the walls. The temperature of the house should be kept at 50 degrees F. The beds should be prepared from fresh horse manure, either dried or mixed with one quarter its volume of loam. Place a layer of this material about four inches thick on the floor of the bed, and trample it down firmly; then add a similar layer and treat in a like manner, repeating until the bed is a foot or more in depth.

After the heat of bed has reached its highest point and begun to decline—providing it is not higher than 90 degrees—the bricks of spawn should be broken up into pieces about two inches cube, and these should be inserted six inches apart just within the bed. About a week later a layer of moist loam, free from sand should be laid all over the surface to the depth of an inch and a half and beaten down hard with a spade. Watering should be avoided but it is often desirable to sprinkle the walls of the room.

In the open air mushrooms are usually grown in beds made up into ridges about three feet wide at the base and about four feet in height. A fairly thick covering of straw or litter is spread over the whole so as to retain the heat and protect against rain.

The seed of asparagus should be sown thinly on ground that has been well dug but not manured, any time from March to June. The drills should be about a foot apart and about an inch deep. When the seeds are placed the ground should be raked over and pressed. In this country asparagus is usually not in best condition for use until after the third season.

Cabinet Members.

To the Bulletin—Would you kindly tell me the names and portfolios of the members of Sir Robert Borden's cabinet; also the names and portfolios of the cabinet of Alberta?

A READER, Mannville.

Members of Sir Robert Borden cabinet:

Minister of Trade and Commerce: The Right Hon. Sir George Foster, P.C., K.C.M.G., B.A., LL.D., D.C.L.

Minister without Portfolio: The Hon. Robert Rogers.

Minister of Railways and Canals: The Hon. Francis Cochrane.

Minister of Finance: The Hon. Sir William Thomas White, B.A.

Minister of Marine and Fisheries and Minister of Naval Services: The Hon. John Douglas Hazen, B.A., B.C.L.

Minister of Justice: The Hon. Chas. Joseph Doherty, K.C., LL.D., D.C.L.

Minister of Militia and Defence: The Hon. Albert Edward Kemp.

Minister of Interior and Superintendent General of Indian Affairs: The Hon. William James Roche, M. D., LL.D.

Minister of Labor: The Hon. Thos. Wilson Crothers, K.C., B.A.

Minister of Customs: The Hon. John Dowseley Reid, M.D.

Minister without Portfolio: The Hon. Sir James Alexander Loughheed, K.C.

Minister of Agriculture: The Hon. Martin Burrell.

Postmaster General: The Hon. Thomas Chas. Casgrain, K.C.

Secretary of State and Minister of Mines: The Hon. Pierre Edward Blondin.

Solicitor General: The Hon. Arthur Meighen, K.C., B.A.

Minister of Inland Revenue: The Hon. Esioff Leon Patenaude.

Members Alberta Executive Council: Premier, Minister of Railways and Telephones: Hon. A. L. Sifton.

Attorney-General: Hon. C. W. Cross.

Minister of Agriculture: The Hon. Duncan Marshall.

Minister of Public Works: Hon. C. Stewart.

Provincial Treasurer: Hon. C. R. Mitchell.

Provincial Secretary: Hon. A. J. MacLean.

Minister of Education: Hon. J. R. Boyle.

Minister of Municipal Affairs: Hon. W. Garipey.

Current Comment

French Praise for the Canadians.

From the Le Matin (Paris).

The Vimy Ridge was an exceedingly formidable position. The enemy had constructed tunnels and underground shelters (these which were of invaluable assistance to him. The Canadians, commanded by General Horne, had to display heroism and bravery worthy of the highest admiration to overcome such an organization. At Vimy, as elsewhere, at Farnus and Thelus, all the German batteries were deep down in the ground and protected by concrete shelters—defying the most intense bombardment. During the attack of September, 1915, we fired on Farnus a hundred 870 m.m. shells without succeeding in silencing a single enemy battery.

The Lesson of South Africa.

From the London Daily Telegraph.

The presence of General Smuts in this country is significant. What does it import? When responsible government was granted to the Transvaal and the Orange Free State, about ten years ago, who possessed the presence to recognize that that act of faith would contribute to the defeat of Germany? It would have seemed a

preposterous idea to any other people that, the rebellion having been crushed, the rebels should be given the fullest liberty within the freest of all Empires. This war has supplied the eminent sequel to a decree of state-manship which will stand forth in the annals of this century as the triumph of our stewardship over the triumph of one-quarter of the earth's surface. A new Dominion has been created out of sparring and dangerous elements, and thus made a contribution to the defeat of Prussianism. Nothing has impressed the world more, and nothing has strengthened the allied cause more than the fact that in this struggle the enemies of yesterday are beside us in defending principles which we now share in common.

Substitutes for Bread.

From the London Daily Mail.

There are plenty of substitutes which can be served in place of bread in any middle or upper-class household. Oatmeal, barley flour, rice flour, and rice, say nothing of lentils, and nuts and maize, provide the cook with abundance of choice. Bread should be saved and spared in every conceivable manner and should never henceforth be placed on the table ready cut or made into toast. For the really poor the conditions are different. They must have bread because it is their principal article of diet. If we can save a weekly average of a pound of bread per head then we shall defeat the submarine blockade. The situation is so exceedingly serious that it calls for the utmost self-denial and care. Thoughtlessness in the consumption of food has become almost as dangerous to the cause of freedom as open disloyalty.

Time To Act.

From the Ottawa Journal-Press.

The terribly grave news from Petrograd of internal anarchy which may end Russia as a factor in the war, and release millions of German troops for use against the British and French, constitutes an emergency for Canada which should be met by immediate enactment of compulsory service.

Under the "selective draft" army law adopted by the United States Congress, every male citizen within the ages of twenty-one and possibly forty years must register on the Government roll.

The Government may then select 500,000 of these for National Service, and an additional 500,000 when de-aired.

A law of that kind should be adopted in Canada, and adopted at once.

Under a law of that kind, a hundred thousand soldiers could be added to the Canadian armies without taking away from really necessary production in this country a single man. It is time to act.

If You Are Using Wire Rope, You May Also Require Clips. We Stock the Best That Is—The "Grosby."

When Will the Stars and Stripes Be Unfurled in France?

When it comes to the question of an immediate expeditionary force to France there seems to be a division of public opinion. Opponents of the idea argue that our trained soldiers are at present more needed here to train the new armies we are raising, and that for the moment our ships can accomplish more by taking food to our Allies. But the other view finds eloquent advocates among our press, and Washington dispatches seem to indicate that the administration has been converted to it by the arguments of the French Commission. Marshal Joffre addressing the American people through the correspondents urges us "to let the American soldier come now."

In THE LITERARY DIGEST for May 12th, you will find all phases of the Government's war activity at Washington covered in an intelligible comprehensive way. The full force of public opinion as indicated by the newspaper press is presented in all its shades.

"The Digest"—the Busy Man's Bible, the Doubting Man's Dictionary

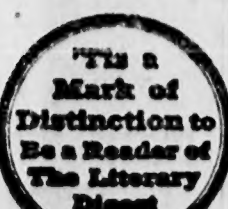

...Those of us who are busy, and which of us is not in these superstitious times, frequently sigh over the arid wilderness of irrelevant information through which we have to struggle in our daily papers in order to obtain those diamonds in a dust-heap, the items of vital news for which we are seeking. THE LITERARY DIGEST not only sifts the news, but

derives its resume of the news not merely from a single paper, which would be to retain the latter's view-point, but from a weekly gleaming of all the worth-while publications of the world, recording the result without comment or partiality, adhering to no view-point but reporting all. The facts of the day, focused from all points, are yours in "The Digest."

WHAT THE PRESS
AGENTS SAY"BOY" COMEDIAN
IS FEATURE OF
PANTAGES BILLEd. Blondell and "The Magazine
Girls" Hold Prominent Places
On New Program.

One of vaudeville's cleverest impersonators in his own particular line is coming to the Pantages next week in the person of Ed. Blondell, who headlines the program in "The Boy From Home," in which he is assisted by Katherine Cain. Blondell is known to vaudeville audiences as "the boy comic," a description that fits him to a nicety because he is decidedly amusing in a different sort of way.

"The Magazine Girls" are a troupe of players, mostly girls, who present a tabloid musical comedy, in which Doc Baker and Elaine Juliette are featured members. The former appears as "Pasquale," and the latter as "Josephine." There are four scenes in the pretty playlet.

Gerrard's Simian performers give a display of intelligence that is almost uncanny and perform some remarkable tricks during their twenty-minute turn that opens the main portion of the bill.

Flo Gillespie is a singing comedienne who presents the Four Virginia Girls in a medley of songs and an exhibition of feminine beauty that will be hard to beat.

Miller and Lyle, two of the funniest negroes in vaudeville on any part of the globe have been seen here before, but it is almost four years ago. They

Scene from "The Conquest of Canaan," at the Monarch, Monday and Tuesday.

return in a merry hodge podge of nonsense known as "Blessed With Ignorance," which is descriptive of nothing.

"Pearl of the Army" will be seen on the Pantages screen no more after next week, as the fifteenth and last episode will be shown on the program headlined by Ed. Blondell.

CONVENTION POSTPONED.

'THE BOY FROM HOME'

SECOND STORY
BY TARKINGTON
ON THE SCREEN"Conquest of Canaan" and
"Sleeping Fires" Features at
Monarch Next Week.

Another Booth Tarkington story has been adapted to films and is destined to become as much of a popular favorite with movie fans as "Seventeen," which was seen here on a Monarch screen a few weeks ago. The latest is "The Conquest of Canaan," which has been adapted to the screen by the Frohman Amusement company, by the production, supporting by Marie Edith Wells, Ralph Delmore, Jack Hopkins, Gene LaMotte and 2000 others. This picture will be shown on the Monarch screen the first two days next week.

Those who have followed Pauline Frederick's film career will note the wide range of subjects and characters her work has covered. While there is no doubt about the fact that Miss Frederick's best work is done in heavy emotional types of pictures, still the fact remains that this gifted actress in the screen possesses a scope seldom equaled. For instance, she has played an old woman in "The Moment Before," a wild young girl in "Audrey," an adventuress in "The World's Great Shame," a quiet home-loving woman in "The Woman in the Case," a young girl, but this time a suspected shoulder, in "Ashes of Embers," and many other varied characters.

In her latest picture she portrays a young wife and mother, fighting through the long battle of the courts for her child. She is patient, loving and gentle, until, as the title suggests, the "Sleeping Fires" are aroused, when she becomes little short of lioness fighting for her offspring and rises to splendid heights of artistry.

But there is also another feature on this program, Roscoe (Fatty) Arbuckle comes in the first release of the new company headed by himself in association with Joseph Schenk. The initial feature is known as "The Butcher Boy," and among his supporters is "Buster" Keaton, who was seen here recently as a feature of a vaudeville bill at the Pantages.

ELEVEN REEL

FEATURE HERE
WEEK MAY 28"Joan The Woman" To Be Shown
on Screen at Empire
Theatre.

Based on the life of the immortal Joan of Arc, a motion picture production in eleven parts entitled "Joan The Woman," directed by Cecil B. DeMille, with Geraldine Farrar in the role of Joan, will begin an engagement of one week starting May 28 at the Empire theatre.

Although Miss Farrar a year ago acted in three short photoplays under Mr. DeMille's direction at the LaSalle studios, "Joan The Woman" will mark her first appearance as the star in a cinema drama of length sufficient to comprise an entire evening's entertainment.

There is a certain timeliness about the story of Joan of Arc, as it has been reported frequently from France that public interest in the Maid of Orleans never was so keen as at the present moment. Although the story of "Joan The Woman," written for the screen by Jeanie MacPherson, has been carefully produced, it is said that Mr. DeMille and Miss Farrar have touched upon this feature of modernism in relating one of the most fascinating stories of medievalism.

All the scenes of the picture were made last summer in California, Miss Farrar having spent more than four months in the motion picture colony. As to the historical accuracy of costumes, armor, heraldry, buildings and the personnel, that portion of the production was in the hands of Wilfred Buckland, formerly of the artist staff of David Belasco. Mr. Buckland and Mr. DeMille for two years have worked side by side in the LaSalle studios and the assembling of material for "Joan The Woman" consumed many months of that time.

Nothing more striking portrays the historical truth which "Joan The Woman" has been staged than mention of the members of the cast. The hero is played by Wallace Reid, who was the Don Jose in Miss Farrar's film production of "Carmen," Hobart Bosworth, as La Hire, Theodore Roberts, as Cauchon, Raymond Hatton, as King Charles VII, Tully Marshall, as Lelecleur, and Charles Clary, as La Tremouille.

AUBURN LOCKS
AT A PREMIUM

Two of the best Bluebirds produced and a special feature make up the headlines for next week's offering at the Majesty theatre. On Monday the special attraction will be Ella Hall, one of the most popular of the many Bluebird screen stars, in an immensely interesting photoplay full of real "grip" that pulls at the heart strings and awakens every emotion to which human nature is heir. "Polly Red Head" is the name of the play, which has been adapted from Edgar Jepson's "Pollyooly" stories. On Wednesday and Thursday two features divide the publicity. One of these is Mary McLaren in her great success "Shoes," which gained her almost world-wide fame overnight. The other mid-week feature is one in which Zoe Rea, the wonderful six year old juvenile Bluebird star. It is entitled "The War Wolf" and is a story of the German invasion in Belgium. For the last two days of the week the sixth episode of "The Voice on the Wire" will be shown as well as five funny reels of Fatty Arbuckle and Mabel Normand.

While red-headed people usually have the knack of getting what they go after, it is not usually the case that they get very much of anything for nothing; however, Monday and Tuesday will be lucky days for Edmonton heads, for on those two days people of auburn locks are to be admitted free to the Majesty theatre, where the latest Bluebird success "Polly Red Head" is to be shown. This is a five act photo-drama based upon Edgar Jepson's "Pollyooly" stories which have attained such an enormous popularity of late.

The wonders of photography will lend an exceedingly mystifying episode to this photo-play with Ella Hall playing two character parts—little red-headed girl so much alike that they are substituted one for the other in a time of great domestic stress.

While impersonating both roles it becomes necessary for Miss Hall—who it will be remembered played the leading feminine role in "The Bugler of Algiers"—to meet herself, converse with herself and do all the things that two different little girls are supposed to do when they meet for the first time. This comes when the two little girls are preparing to change places—one to go from drudgery to a life of luxury and the other for an atmosphere of refinement to take up the work of a household drudge.

FABULOUS PRICE FOR VIOLIN
UNUSED 200 YEARS HAS ROMANCEStradivarius Glistening With Newness Had Been Stored In a Spanish
Museum for Many Generations Untouched—Skovgaard, Who
Comes Here Monday Night, Has It.

Violins may not have the sentimental associations attributed to them by many musicians, but they have histories, interesting and varied, even as do their warm friends of mankind. A violin which is not only remarkable in itself, but with a remarkable story is the one possessed by Axel Skovgaard, the violinist. It is as bright and polished as if it had left the hands of its maker but yesterday and still the instrument is nearly 200 years old. In spite of its age, retaining the original varnish as applied by the skillful hands of Antonius Stradivarius, without a flaw or scratch. Looking very young and new, it is among the oldest violins in existence, as it is the most famous and costly. But more remarkable than its age and fine state of preservation is the fact that the

First Person to Play upon it was Mr. Skovgaard himself, and as he is a young man, making no pretense of having attained perpetual youth, the story is naturally a most unusual one.

To chance meeting with a London dealer in musical instruments, Mr. Skovgaard owes his good fortune in obtaining his rare Strad. This man had a fine collection of Italian violins, among them being masterpieces by Amati, Stradivarius, Guarnerius, Gersongi and Guadagnini. They were real antiques, cracked, scratched, scraped and worn through more or less rough life for several centuries. Having reveled in the wealth before him and tried most of them, Mr. Skovgaard remarked that it would have been a pleasure to have seen such instruments when they were new, but such pleasures were denied modern artists.

To the surprise of Mr. Skovgaard, his new friend replied in the negative and stepped to a fireproof vault and came out with a big yellow leather case, which he opened and took out and handed it to his guest.

An Astonishing Violin. Apparently it was just from the maker's shop, but plainly it was labeled "Antonius Stradivarius Anno 1712."

"I could not believe my eyes," says Mr. Skovgaard, "but stood as one in a trance. As I stood there with the handsomest of all violins in the world in my hands I was carried back as if in a dream to the days of the great violin makers."

The artist goes on to tell of his desire to possess the noble instrument and of the great number of vicissitudes through which it led him; how finally he gained a closer acquaintance with the London dealer, who told him the romantic story of the instrument.

"When I was last in Madrid," said the dealer, "I was presented to a collector of art works, in whose collection, however, there was but one violin, viz: a Stradivarius. Naturally I came lost among so many paintings

inquired how a violin could have been and he then informed me that it was an Old Heirloom which had always been in the family, and that he had once found a book with a history of the same violin, and it was therefore that it had been retained in the museum."

Later a fire had partially destroyed the museum, causing the owner of the violin to entrust it to his London friend until the rebuilding of the place. With the instrument went the romantic tale of its origin—how in remembrance, through the love of one of Stradivarius' best pupils, for a girl violinist, an instrument that the maker particularly prized had been

Stolen for the Girl. When it was returned to its maker he refused ever to part with it, and it was not until after his death that his sons sold it to a collector, who, in his turn, sold it to the Spanish museum, where the instrument descended from father to son in many generations.

Mr. Skovgaard was naturally more than ever desirous of purchasing the instrument and finally obtained his father's consent to the payment of the price demanded, \$13,000. Before it changed hands the instrument was examined by famous experts in Paris and Italy, who pronounced it genuine. Mr. Skovgaard also tells how, at the last, the Spaniard wished to withdraw from the contract, but was held to it by the London solicitors of the Copenhagen family. "The violin," he adds, "fulfilled the most enthusiastic expectations as all will believe who have heard its tone."

It is on this wonderful violin that Skovgaard will play at the Empire theatre, Monday, May 14th.

Roscoe "Fatty" Arbuckle, the latest star under the Paramount banner, who will be seen on the screen at the Monarch theatre the last four days next week in "The Butcher Boy," has grown so fat that when he travels by rail he is compelled to have a special private car.

Being worth his weight in laughs, is in fact one of the most serious handicaps under which the unfortunate Mr. Arbuckle waddles, if one may believe his representations. His excess adipose tissue prevents the redoubtable comedian from ever travelling in the common variety of sleeping car and in this day of frightfully high prices he finds himself reduced to the extremity of hiring a private car when travelling to or from his hotel.

Mr. Arbuckle, it seems, has had so many unfortunate experiences in his endeavor to inhabit the ordinary sleeping car that he lost great weight through worry, and was in a fair way to have to change his standing from the funniest man to the human skeleton.

"Fatty" is travelling in a private "caboose" as he calls it, because he has found that this being worth one's weight in laughs is a darn nuisance and a frightfully expensive proposition.

NEW SELZNICK RELEASE

"The Law of Compensation," which will be seen at the Monarch theatre soon with Norma Talmadge as the star is the latest Selznick-Picture released. So consistent has been the high grade of the productions under this banner, that it is beginning to be recognized as a guarantee of quality. "The Law of Compensation" is a worthy member of the family of successes which includes "The Common Law," "War Brides," "Panther," "The Argyle Case," and "The Eternal Sin." Like the other Selznick releases, it is by a noted author, Wilson Mizner, who became internationally famous through his collaborations with Paul Armstrong in "Alias Jimmy Valentine" and "The Deep Purple."

THE CHIEF CHARM OF LOVELY WOMAN

Soft Clear, Smooth Skin Comes With The Use Of "FRUIT-A-LIVES"

NORAH WATSON

86 Drayton Ave., Toronto.

Nov. 10th, 1915

A beautiful complexion is a handsome woman's chief glory and the envy of her less fortunate rivals. Yet a soft, clear skin—glowing with health—is only the natural result of pure blood.

"I was troubled for a considerable time with a very unpleasant, disfiguring rash, which covered my face and for which I used applications and remedies without relief. After using 'Fruit-a-lives' for one week, the rash is completely gone. I am deeply thankful for the relief and in the future, I will not be without 'Fruit-a-lives'."

NORAH WATSON.

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid on receipt of price by Fruit-a-lives Limited, Ottawa.

ITALIANS SINK 13 SUBMARINES IN ONE WEEK'S TIME

Official Information is Received in Washington—Four Transports Sunk.

Washington, May 11.—Advices to the Italian embassy here say thirteen Austrian submarines have been sunk in the Adriatic by Italians during the last week. The same dispatch, giving no date, says that for the fourth time within a year, Italian destroyers penetrated the fortified port of Durazzo, sinking four transports loaded with provisions and ammunition.

NOT WITH KASER'S AGENTS. WASHINGTON, D.C., May 11.—President Manuel Gompers, of the American Federation of Labor, has sent the following reply to a request from a group of peace advocates for use of his name on a call for a peace conference: "I prefer not to ally myself with the conscious or unconscious agents of the Kaiser in America."

TO RELIEVE CATARRHAL DEAFNESS AND HEAD NOISES

If you have Catarrhal Deafness or head noises go to your druggist and get 1 ounce of Earsal (double strength), and add to it 1/2 pint of hot water and 4 ounces of granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should be open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Any one who has Catarrhal Deafness or head noises should give this prescription a trial.

Four Virginia Girls

Showing at the Pantages all next week.

POINTERS FOR CONSTRUCTING RURAL ROADS

D. W. Warner, Who Has Had Valuable Experience, Gives Some Good Hints

After an experience extending over 18 years' residence in Alberta, where he has been accustomed to both teaming and motoring on our rural roads, and also having had a practical experience in the making and repairing of rural roads, as foreman of road construction crews in Alberta, and also in Nebraska, near the Canadian border, D. W. Warner, of Clover Bar, is one whose opinion on the road problem is well worth consideration.

In discussing the subject of roads recently, Mr. Warner said to the Bulletin that some of the roads in the suburbs of the city are often much worse than those of the adjacent rural municipalities, and that often the farmers found the worst roads inside the city limits. From his own personal experience and observation he enumerated the following axioms:

Dir. Road is Cheapest. "The ordinary dirt road, with the top soil left or replaced on top of the roadbed, makes the best road for this country at the least possible expense. Oil or asphalt is an expensive material, and the long haul from the source of supply. The same often applies to the use of gravel or concrete. The most important thing about a dirt road is the problem of drainage, that is, drainage both sideways and lengthwise of the direction of the roadway. But when making or constructing the roadbed so as to secure this desired drainage, it is most important that the top soil of the natural prairie be left in top, or put on top when the roadbed is finished. The presence of the subsoil or gumbo on the top of the roadbed is the cause of many of the bad spots on the average road.

In most localities where a road bed is made by the use of the road grader, the ditches are simply dug by the edges of the grader, and the top dirt and subsoil taken from these ditches is piled upon the top of the centre of the grade, thus covering up and burying the natural top soil.

The grade in the low places should be made with dirt taken from the ditches of the high places. The grade of the high places should be left with the natural top soil on top of the grade. The top soil taken in making the ditch on the higher ground should be saved for spreading on the top of the grade in the low places. It may mean more work, but it will pay, because making a better finished road, if there is not enough top soil from the ditches to cover the grade in the low places, enough can often be taken from the side of the road.

Graders Not Satisfactory. The wheel scrapers have been found to be the most satisfactory implement where dirt has to be hauled long distances. It is possible to haul the dirt with the wheel scraper long distances with little cost. For short hauls the slash scraper is quite satisfactory. This grader would be all right if the road followed along a level plane, but where the roadway follows over little knolls, and down into the hollows, the grader is not the most satisfactory implement to use.

"Once the road is made, the grader would help to keep it crowned; though the ordinary road grader, used after the summer showers or heavy rains, will keep the crust on the road grade with less expense, and a better road will result than by the use of the grader. The grader shaves the surface of the grade, and leaves the pores of the earth open, permitting the water to soak into the road. The drag, when

used on a moist road grade, has a tendency to close and cork these pores, and make the top crust of the earth shed the water like a roof. The frequent use of the drag keeps the rutting from forming, and so gets the top of the road, which has been made of the natural top soil, packed into a hard smooth surface, which sheds the water almost as good as a city pavement.

"The natural flow of the water often takes it across the road, and in many places culverts are necessary to prevent the grade from making a pond on the side of the road, and thus causing trouble and damage to the grade. The small culvert has generally proved unsatisfactory, for it is especially liable to become clogged, and often freezes up in the winter and is of no service when most needed.

"The most permanent culvert would be built of concrete, but often the gravel is too costly on account of the long haul. However, the tamarac culvert lasts quite a long while, and gives good service. The culvert should be made wide enough and deep enough to prevent its freezing up in the winter, low enough to drain off all the water liable to collect, and high enough to be near the top of the grade so that the water can be removed easily to clear away any obstructions or to deepen the culvert if needed. The culvert should be detachable, and yet strong enough to carry the heavy weight of a traction engine or other heavy loads.

Drifting Snow. "The drifting of the snow in the winter causes another road difficulty, which a little foresight in the making of the road will overcome at the start. On most roads there is a telephone line running along one side, with the poles six feet from the fence. When the winds blow the snow off the top of the road grade, there is often neither road ditching nor good wheeling room for a sleigh road for winter use. The road should be left along one side of the grade and not a long both sides. To do this it is best to build the grade of the summer road a little to one side, and a little nearer to the side of the road nearest to the telephone poles. By putting the grade in the centre of the road, it is not room enough for a sleigh road between the poles and the grade, and by moving the grade a little nearer to the poles there is then enough room to make a sleigh road along the opposite side to that of the poles.

"The leaving of the extra road along the side has an added advantage even in the summer, and especially in the spring. It means that the road is not frozen and while the frost is going out of the dirt grade, which is soon dry and undamaged. It will be ready to use when the frost is out of the road-covered side road.

"The brush should be kept up and turned along the side of the road to allow travel there in the winter. Trees or bushes in the road allow the sun from drying up the mud, and prevents drifts from forming on the road.

"The grade should not be made too narrow, 22 feet from outside to outside of ditches having been found to be quite satisfactory, and best in most cases. If the grade is too narrow, too much rounded, the vehicles are apt to skid off into the ditch when the grade is wet or icy.

"Where possible, and as far as possible, the water should be drained along the road allowance without trespassing upon private property, but in some cases it may be necessary to put in drains along private property to follow the natural watercourses. But such drains should be put in with as little damage as possible to private property.

"It is quite important to drain the ponds away, especially in the suburbs of the city, so as to remove the breeding place of the mosquitoes, and thus prevent the spread of disease throughout the community.

"Open ditches have been found the most satisfactory in this country. Underground ditches, to be of any practical use, must be plugged at the upper end in the fall to prevent them from being frozen solid in the winter, and so made useless when they are most needed."

HUDSON'S BAY TO TEST SASK. LIQUOR LAWS

Claim Provincial Government Interfering Illegally With Business

Regina, May 11.—Claiming that the provincial government is interfering with their business illegally, the Hudson Bay Company and Gold Seal Ltd. this morning entered a strenuous defence to the charges of breaking the sales of liquor act. The cases came before magistrate Heffernan in police court following seizures of liquor last week, destined for export out of the province. There was an imposing array of counsel. J. F. Frame, K.C., and J. A. Allen, K.C., appeared for the Hudson Bay Company; D. A. McNeven, K.C., represented Gold Seal Ltd., and A. R. Finlay, K.C., acted for the crown prosecutor.

No plea was entered by defendants but each objected to the jurisdiction of the court contending that provincial interference with the federal laws is not local. Admission was made to the facts of the charge. The hearing was adjourned until May 15th.

CAPT. BELL, D.S.O., MISSING

NOTTINGHAM, May 11.—Captain Albert Bell, D.S.O., of the British Flying Squadron, who recently received the freedom of the city of Nottingham for having brought down many German airplanes before his twentieth birthday, has been missing since Monday, according to a letter received by his father.

For God so loved the world, that he gave his only begotten Son, that whosoever believeth on him should not perish, but have eternal life.

John 3:16

JUST LIKE A HOUSECLEANING

Every room needs an occasional "Cleaning up", no matter how carefully the regular sweeping and dusting is done. Especially is this true after any unusual event, a party, a wedding or a quilting bee.

So it is with your body. No matter how regular your habits or well cooked your food, there comes a time when you don't feel just right. You may recall an unusually hearty meal or two, irregular hours, or eating something that "didn't agree with you", or it may be just the "dust-gathering".

In any case a few doses of a really good cathartic is all you need to put you right. For this purpose nothing is quite so suitable as

Chamberlain's Tablets

Two or three after supper the first night, and one each night for two or three days, and your digestive apparatus is just like the well-cleaned room. Every part of your body is more vigorous, you go about your work with a new feeling and begin again to enjoy life. Are these benefits not worth getting? You know they are. And you need have no hesitation about beginning them for fear you must "keep it up". The effect is just the opposite.

IN THE CITY CHURCHES

Sunday Services

Notices for this page should be received at the Bulletin editorial office not later than 10:30 on Friday morning. They should be legibly written and on fair-sized sheets of paper.

Anglican

All Saints Pro-Cathedral.—Services for Sunday next: celebration of the holy communion, 8 a. m.; matins, choral celebration and sermon, 11 a. m.; holy baptism will be administered at 4:15 p. m.; evensong and sermon, 7:30 p. m.; anthem, "Thou visitest the earth," (Calcutt). Thursday next being ascension day, there will be celebration of the holy communion at 8, and 11 a. m.

At Christ Church, corner of 116th street and 102nd avenue, services will begin with Holy Communion at 8 a. m. Morning prayer and litany will be at 11 a. m.; Sunday school and Bible class meet in the parish hall at 3 p. m. The primary class meets at same hour in the church. Evening services will be at 7:30 p. m. Rev. W. McKim, M. A., will preach morning and evening.

St. Mark's Anglican Church, corner 111th street and 10th avenue.—Arrangements for young people are as follows: Morning service at 10:30 a. m. Sunday school 2:30 p. m.; Bible classes at 3:30 p. m. Divine service at 7 p. m. will be conducted by Rev. H. Alderwood.

St. John's Church, Jasper Place.—Morning prayer and sermon at 11. Subject: "The Christian Religion." The Sunday school meets at 3 p. m.

St. Mary's Highlands.—Holy communion, 11 a. m.; preacher, Rev. K. Taylor. Sunday school 3 p. m.; 7 p. m. induction to the parish of the Rev. K. Taylor, by the Right Rev. the Bishop of Edmonton.

Bonnie Doon.—the services at St. Luke's Church will be as follows: 8 a. m., holy communion; 11 a. m., Matins, litany and sermon; 3 p. m., Sunday school; 7 p. m., evensong and sermon. The preacher in the morning will be the Rev. Ingram-Johnson, and in the evening, Mr. J. Maitland.

St. Barnabas Church, Gallagher Place.—2:30 p. m., Sunday school; 7 p. m., evensong. Preacher, the Rev. Ingram-Johnson.

St. David's Mission, King Edward park.—3 p. m., Sunday school.

Church of St. John the Evangelist.—Morning prayer and holy communion at 11:00 a. m. Sunday school at 3:00 p. m.; evensong and sermon at 4:00 p. m. At the afternoon service during the month of May, the Rev. W. Everett Edmonds will deliver a course of sermons on the theological doctrines underlying the church's best known hymns.

Presbyterian

Highland Park Presbyterian Church.—N. D. MacDonald at both services. At the meeting of the Sunday school in the afternoon, Mothers' Day will be fittingly observed. A program, consisting of songs, recitations, and choruses will be rendered. Ralph T. Bishop will give a short address on the value of Motherhood.

Calvin Presbyterian Church.—Sun-

day school at 3 p. m., regular services at 4 p. m. Mothers' Day will be fittingly observed, and Mr. MacDonald will preach.

First Presbyterian church.—Rev. Dr. McQueen will conduct both the morning and evening services. Morning music: Solo, Miss Pike; anthem, "Jesu Word of God Incarnate" (Gounod). Evening music: Solo, Mr. Jones; anthem, "Lead, Kindly Light" (Hemlich). Miss Pike and choir.

Robertson Presbyterian church.—Morning subject: "Our Mothers." Anthem, "O Love the Lord" (Sullivan); solo, "The Better Land" (Cowan). Mrs. H. Cockburn. Evening subject: "Our Mothers." Anthem, "The Sun Shall be no More" (Woodward); solo, "Beyond the Dawn" (Sanderson). Mrs. I. Capstick. The pastor will preach at both services.

Knox Presbyterian church.—Morning subject: "Our Mothers." Anthem, "The Great Magnet" by Rev. Mr. Keith. A Junior choir will have charge of the music. Evening service in charge of the ladies. Mrs. Nellie McClung will give the address. There will be a ladies' choir rendering the following music: Chorus, "Saviour, Again to Thy Dear Name We Raise," by Kate Lewington; solo, Miss "Glen" chorus, "How Lovely Are the Messengers, by Mendelssohn; selected, "Memories of Mother," by Fred P. Morris.

Westminster Presbyterian church.—Main street, South Side.—Rev. E. McGowan, M. A., minister. Sabbath services, 11 a. m. and 7:30 p. m.; Sabbath school, 3 p. m. Mr. McGowan will preach at 7:30 p. m. The Sunday school meets at 3 p. m. The Sunday school meets at 3 p. m. The Sunday school meets at 3 p. m.

St. Mary's Highlands.—Holy communion, 11 a. m.; preacher, Rev. K. Taylor. Sunday school 3 p. m.; 7 p. m. induction to the parish of the Rev. K. Taylor, by the Right Rev. the Bishop of Edmonton.

Bonnie Doon.—the services at St. Luke's Church will be as follows: 8 a. m., holy communion; 11 a. m., Matins, litany and sermon; 3 p. m., Sunday school; 7 p. m., evensong and sermon. The preacher in the morning will be the Rev. Ingram-Johnson, and in the evening, Mr. J. Maitland.

St. Barnabas Church, Gallagher Place.—2:30 p. m., Sunday school; 7 p. m., evensong. Preacher, the Rev. Ingram-Johnson.

St. David's Mission, King Edward park.—3 p. m., Sunday school.

Church of St. John the Evangelist.—Morning prayer and holy communion at 11:00 a. m. Sunday school at 3:00 p. m.; evensong and sermon at 4:00 p. m. At the afternoon service during the month of May, the Rev. W. Everett Edmonds will deliver a course of sermons on the theological doctrines underlying the church's best known hymns.

Calvin Presbyterian Church.—Sun-

"The Christian and His Amusements."

The general public welcome.
Albion Baptist Church.—R. J. Oldridge will conduct the services in the Albion Baptist church next Sunday evening at 7:30 p. m.
Belton Baptist Mission, 1192 85th street. Sunday school and Bible class, 8 p. m. Gospel service, 7:30, will be conducted by the Gospel Band from the First Baptist church.
McDonald Baptist church, corner of 93rd street and 10th avenue.—Prayer meeting and lesson discussion 10 a. m. Services 11 and 7:30 will be conducted by the pastor, Rev. D. M. Thomson. The morning subject will be especially for those who have recently started in the Christian life: "Can we be sure that we have Eternal Life? At night the thought of Mothers' Day will be emphasized in an address particularly appropriate to young men and maidens, the subject being, "The right kind of girl." Sunday school and Bible classes will meet at 8 p. m.

Miscellaneous

First Unitarian Church.—Regular service at 11 o'clock. Subject of address: "By Searching Finding Out God." Sunday school as usual.

First Scandinavian Lutheran Church, corner 94th street and 10th avenue.—Mr. E. Scottvold from Canmore will preach next Sunday morning and evening. Sunday school at 8 p. m. All Scandinavians are invited.

First Church of Christ, Scientist, (Christian Science), corner of 118th street and 102nd avenue.—Services on Sunday at 11 a. m. and 7:30 p. m. Sunday school at 12 o'clock. Mid-week service Wednesday at 8 p. m. Reading room, 107 Adams building, open to public every week day from 12:30 to 5 p. m. Public cordially invited.

Welsh Church.—Services at Assembly Hall, Williamson Block. Sunday school 11 a. m. Evening service 7:30 p. m. Preacher, Mr. Giff Davies, Edmonton South.

Beulah Mission.—Miss M. E. Chastland, superintendent. Sabbath school 10:30 a. m.; Evangelistic services 3 and 7:15 p. m. Week days: Tuesday and Friday 7:30 p. m. Beulah Home prayer meeting Thursday 8 p. m. All are invited. 10640 98th St. (Prairie), 6 blocks north of Jasper.

Christian Church.—Norwood Boulevard and 56th street.—Services on Sunday at 11 a. m. and 7:30 p. m. by Rev. C. E. Evans, at 11 a. m. Bible school 10 a. m.

SEVEN SENTENCE SERMONS.—"The Inn of a traveler on the way to Jerusalem."—Inscription on the grave of Dean Alford.

Modernizers of opinion are often used, but the glory of the shame belongs to partisans.—Harper.

Because right is right, to follow right were wisdom in the score of consequences. —Tennyson.

A man must not only be able to work, but to give over working.—Thomas Carlyle.

He maketh the storm a calm, so that the waves thereof are still.—Ps. 107:29.

Hope larger hopes.
Thy heart to love expand;
The father's heart is large,
And takes all in;
And He, thy Father, owns
In every land,
Love thou, and hope that all
The Christ may win.

—Marianne Farningham.

And, having thus chosen our course, let us renew our trust in God and go forward without fear and with many hearts.—Abraham Lincoln.

FRATERNAL

Independent Order of Foresters.—The I. O. F. Court, 10th and 10th street, held a united lodge meeting May 7th in Oddfellows hall, over the Douglas book store. Bro. R. S. Mackenzie, supported by D. H. C. R. Williams. There was a decided improvement in the attendance. The Chief Ranger set a good example by calling the meeting to order on time, so that the business of the evening was finished in good time, and to the satisfaction of those present. The next lodge will be held on Monday evening at 8 o'clock, at the Douglas book store. All members are requested to attend. Visiting brethren are cordially welcome.

Edmonton Loyal Orange Lodge, No. 1792. will meet on Wednesday evening, May 16th, at 8 p. m. sharp, in the Oddfellows hall, corner 94th street and Jasper avenue. All members are requested to attend. Visiting brethren are cordially welcome.

Edmonton Loyal Orange Lodge, No. 1792. will meet on Wednesday evening, May 16th, at 8 p. m. sharp, in the Oddfellows hall, corner 94th street and Jasper avenue. All members are requested to attend. Visiting brethren are cordially welcome.

DUMPS ETC ONLY TEMPORARY

Editor, Bulletin.
Sir—The "resident" who complains in this morning's issue of the condition of C.P.R. property between Jasper and Athabasca avenues, on 10th street, was probably observant in noticing the "dumps of earth, broken brick and debris," although the latter term is rather strong, but surely it is quite apparent that the material is being placed there for some purpose other than the creation of a nuisance ground. When all the holes are filled with the objectionable material mentioned by "resident," the ground will be leveled and finished in C.P.R. style. This I think will be generally accepted as a sufficient guarantee of our intentions.—Tours truly,
J. A. MACGREGOR,
superintendent.

Edmonton, May 11.

NO DOUBT ABOUT TITLE.

Editor, Bulletin.
Sir—In regard to the Journal statement of the police court proceedings of May 10th, my reporter seems to doubt, or envy my title, Archbishop of the St. Mark's Church of the First-born. He refers to me as George Washington, "who claims to be" archbishop of the above-mentioned church. This statement, besides being an insult to the archbishop, is liable to have a bad effect on the flock. The papers referring to the title may be found at the Joint Stock Department of the Provincial Government, or the information regarding the incorporation of the church may be had from Wm. N. Waugh, attorney and councillor at law, Butte, Montana.
ARCHBISHOP WASHINGTON.

PAYS TRIBUTE TO ALIENS

Editor the Bulletin:
Sir—I read with a good deal of interest and sympathy the letter of Peter Sturges, "Let Your Women Marry and Keep Silent" and would like to make a few kindred observations from the standpoint of a soldier-student and an Englishman, with your kind permission.

I feel certain that Sergt. Picard who is evidently a member of the Great War Veterans' association can never have taken seriously the policy of disfranchising aliens. No one who knows anything about the industry, perseverance, and long-suffering of these alien soldiers of the empire could ever think of committing so grave an injustice. Thousands of them to my personal knowledge have spent eighteen to twenty years and upwards in cultivating the soil of Western Canada, converting woods of no mean proportions into rich harvest fields. I do not know the other day with a Lutheran friend of mine on my way to join my regiment. He told me of his privations, of the treatment he received from the hands of Canadian citizens, and, honestly, I was ashamed. I have never been treated with greater consideration by anyone than I have in the home of this man. There are many like him. Surely these are the men to be disfranchised. Sergt. Picard could well afford to get after those of our own countrymen and of kindred tongue who have skipped to the U. S. A. to avoid military service—they number thousands! In my opinion these are the hands of Canadian workers, nor do I unfairly retort that these aliens in our fair Dominion. I have had six years personal contact with Ruthenian homes and schools and I could never be a party to any such scheme outlined by the worthy sergeant.

Mr. Sturges' argument is thorough, fair, unquestionable, and an explicit statement of the facts of the case. Surely, veterans, heroes, men who have looked on in the devastation of Belgium and France, do not wish to perpetuate a similar deed in cold blood by forcibly ejecting from their homes men who have made them by honest toil and untold privations. Surely, German avarice, greed, envy have not so hopelessly inoculated our veterans so that they cannot look upon the rights of others with equanimity. We can do without proscriptions and political oppression, especially so, since we champion the rights of minorities. Thanking you for this favor, I am, sir,
Yours truly,
H. FISHER.

Edmonton 8, May 10.

PATRIOTIC FUNDS—CHARITY

Editor the Bulletin:
Sir—The "Patriotic Funds" were were to be at the beginning of the war was an emergency fund to supplement the inadequate government allowance until such time as the government could take hold of this problem themselves. They have had ample time and are neglecting their duty. It is high time that all subscribers and beneficiaries get together and insist in no weak terms that all necessary arrangements be made to tax everyone according to his or her income or wealth. This would make certain that those in position to pay and do not, and those who are now subscribing are sacrificing in order to do so—which is quite right. Everyone should know

what sacrifice means by this time—the soldiers' family know.

There are soldiers' wives in Edmonton who rarely go out of doors because (being sensitive) they will not have it said of them by some busy-tongued otherwise-idle neighbors, "Oh! here comes the wife of Pte. Tom Atkins, all 'dolled up' on 'patriotic money'—our money."

Let the government pay the soldier, the returned disabled soldier and the wives and widows fair compensation. Our munitionworkers have the comforts of home and are well paid—they earn it too—but why not pay our soldiers accordingly, taking into consideration the risk. What if they should get more than they had before the war? They are earning far more than any government could pay them, and if killed the family have a poor outlook for the future indeed.

Some who defend this fund say: "Let it be much nicer for the soldiers' wife to have her fellow citizens and friends take a personal interest in her. Of course, if on the same footing as before the war. But no woman likes to tell in detail how she lives and manages, much less to young inexperienced girls or tactless though well meaning women. If this procedure is necessary you may depend that any woman would much prefer giving necessary information in a business-like manner, to a total stranger employed for this purpose by the government. If her allowance were adequate she would not have to undergo this humiliating experience."

So let us get together and help the government to do its duty and force those able to pay—to pay pro rata on the income basis, similar to the British plan. Let the soldiers feel that they leave their families independent whether they are killed or return. And let the government give returned soldiers the jobs thus created—compiling the lists, collecting, etc., etc.

In the meantime, I believe it to be my personal duty to subscribe and pay to the Patriotic Fund. And let me strongly object to subscribing for the coming year, although will be pleased to pay a pro rata tax. I have willingly worked in the Patriotic Fund campaigns. I am now prepared to work to do away with the necessity for this fund, and would gladly do all required of me by the government in connection with this advocated tax.

Soldier's wife, subscriber, returned soldier—where do you stand?
Sincerely yours,
R. S. HILSBY,
10523 129th St.,
Edmonton.

DR. LANDOUZY DEAD.

Paris, May 11.—Dr. Louis Landouzy, dean of the faculty of medicine of the University of Paris, is dead.

RUSS. CRISIS IS VERY REAL ONE

Problem of Disciplinary Measures Against Troops Fraternizing With Enemy

Petrograd, May 9, via London, May 11.—Responsible Russians ridicule the attempt in certain quarters in London to minimize the crisis through which Russia is passing. This is no matter for radical speculation, but a situation that demands greater efforts in Britain to balance the loss of Russian strength to the allies resulting from the political and military situation here.

The problem of taking disciplinary measures against the troops fraternizing with the enemy occupies the attention of the authorities.

It is hoped, however, that the hostility of certain regiments towards comrades who unwillingly serve the purpose of the enemy will develop, and provide a solution of the problem. The action of the artillery brigade in condemning this fraternizing and declaring its resolve always to fire on the enemy when he leaves his trenches, is cited as an example.

The question of dealing with "red guard" an armed band of workmen who occasionally parades the streets of Petrograd is also engaging the anxious attention of the authorities. Some troops of Petrograd delegation from the front have evinced their resentment of these demonstrations in a marked manner.

U.S.A. IS NOT IN ANY AGREEMENT

Secretary Lansing Issues Denial of Report of Alliance About Peace.

Washington, May 11.—Secretary Lansing today denied published reports that the United States has an agreement with the entente allies not to make a separate peace with Germany by saying: "There is no agreement written or unwritten relative to peace."

RUSSIAN MONEY FAILS

New York, May 11.—A collapse in rubles, attributed to the fact that Russia was a feature today of the foreign exchange market. The Russian remittance fell to 2 per cent. almost half the normal rate. This represents a break of 4-10 of a cent from the minimum of yesterday.

The Great North Land

:: News Notes of General Interest ::

Capt. Coombs, Tells Peace River People Some of Interesting Facts Concerning the Great World War

Big Public Reception in Dominion Hall Gathers to Pay Tribute to Northland's First Soldier—Rev. Bishop Robins Welcomes Return of Hero on Furlough—"Fritz Has Nothing on Our Men, and Never Will Have," Says Capt. Coombs.

Peace River, Alta., May 9, 1917.—True heroism is not blarney and men of deeds are not often men of words. Capt. Harry Coombs, the northland's first soldier, told the story of the biggest thing that ever happened to a man just as if he, and the experiences of other soldiers, fighting in this war were a common thing and as if little special courage had been exhibited above the usual and yet as the story proceeded the hearer became gradually aware that our volunteer soldiers had gone up against the greatest aggregation of trained soldiers that ever goose-stepped or marched and have held them for nearly three years and in the latter year have pushed them back from their positions.

The people of Peace River had gathered in the Dominion hall Monday night to give Capt. Coombs a send-off and to tell him that they were behind all the men who had gone to fight the battles of the Empire. This, voicing forth the wishes of the hearts of the citizens of the north, fell to the lot of The Right Rev. Bishop Robins, who, in a splendid address, which carried the meeting to the heights of high purpose, assured the guest of the evening that should the need demand it the men of the north would go to a man in the defence of the liberties of the world.

Capt. Coombs was then called upon to speak and amid a fine reception rose and when the cheers had subsided quietly told the following story:

"I have never seen so large a crowd in Peace River and this meeting has got my goat. I think I will tell you of some of the most impressive things in the war so far as my experience goes. That was a very impressive thing when the first contingent from Canada went across the water to England. Thirty thousand troops in the biggest convoy that ever sailed the seas left this land and succeeded in crossing without the loss of a man. Then the reception given us in England was a most impressive sight and experience. Why the women were not tickled by our arrival that they waved bed sheets out of the windows and shouted loudly their welcome. Of course the mud of Salisbury was impressive. Then the crossing over to France was a great experience. The Princess Patricia went over in September, 1914, and we went over the following February. The boom of the big guns could be heard in the distance as we

drew nearer. The noise of the guns is terrific. The shells break quite regularly. In April, 1915, Canada went on the map as a fighting nation.

To see a battalion go into the line is an impressive sight. To see it move into the line for an attack is a thrilling experience. As it proceeds it breaks up into sections smaller and smaller. When we went to attack we were told to dig in and were given tools for the work. We went and then began to dig. After digging for a long time we looked to see how big the pile was and when we saw how little it was we began again in great style. Over our heads we could hear the passing of the big shells. Capt. Coombs gave a fine description of the noise made by these fast moving bodies of destruction.

"After digging for some time, we would look again at the pile and it would not seem to be much larger and with the tooth-pick we would go at it again and again until we had some shelter.

"The troops go into battle seemingly care-free and nearly always singing. Visitors may think they do not care for they seem to move forward with an air of pleasure. But they do care only they have not nerve enough not to show it. They go as if they were on parade calmly singing as they go—the companies split up into platoons and all with an air of cheerfulness. I tell you Fritz has nothing on our men, AND NEVER WILL HAVE. (This was said with great deliberation and the enthusiasm of the meeting broke out into prolonged cheers.)

In No Man's Land

"Then to travel into no man's land is a big experience. In the dead of night, when it is quite dark, you are ordered to proceed with caution and you leave the trench erect and begin to walk. Suddenly Fritz sends up a star shell lighting up the whole field and you flop on the ground pretty fast and try to get your nose into the earth as deeply as possible. You have the idea that they can see you but they cannot see you at all when you lie down. Then you begin to crawl round and you get through the wire fences or entanglements and crawl round some more. If you come across a Fritz patrol you try to persuade him to come with you.

You may want to know whether England is prepared or not. Well you

know, when we went over to France in the early days of the war we held the line with a thing called the Ross rifle, we now have the most powerful weapons in the world behind us and stacks of shells. Britain is absolutely prepared. I cannot tell you in words how fully she is ready but England is ready for anything. The work of the women in the war is grand.

"Just a word about socks. We need them badly and when they arrive they are appreciated. I know that we do not always acknowledge them, but that is not because we do not want them, it is carelessness, but the work of the women is spoken about many times a day. Then reminders of the old home town are welcome. Why, I went six months before I received any token from the old town. If I had received a bill of Mouchegian I would have treasured it as gold. Yet we always leave our things behind in the line for the others to read. There is no selfishness along the trenches. Just keep on sending and do not get tired."

At this point Chairman George said that Capt. Coombs had consented to

answer any questions he could, that any one wished to ask. One lady asked about the tanks, how they were made and protected, etc. He replied that the tanks were fine and had rendered great assistance. They were absolutely bullet proof and shrapnel proof. They were only destroyed if a projectile from heavy artillery happened to catch them. The only fault with the tank as used at the front up to now is that they are slow and do not keep pace with the infantry.

Another asked, how Canada had given of men compared with other colonies. He replied that other colonies had done better than Canada. Australia had in France five divisions from a population of five millions. New Zealand had one division from one million population. Canada had four divisions from seven millions population, but they were some four divisions alright, with the emphasis on the "some."

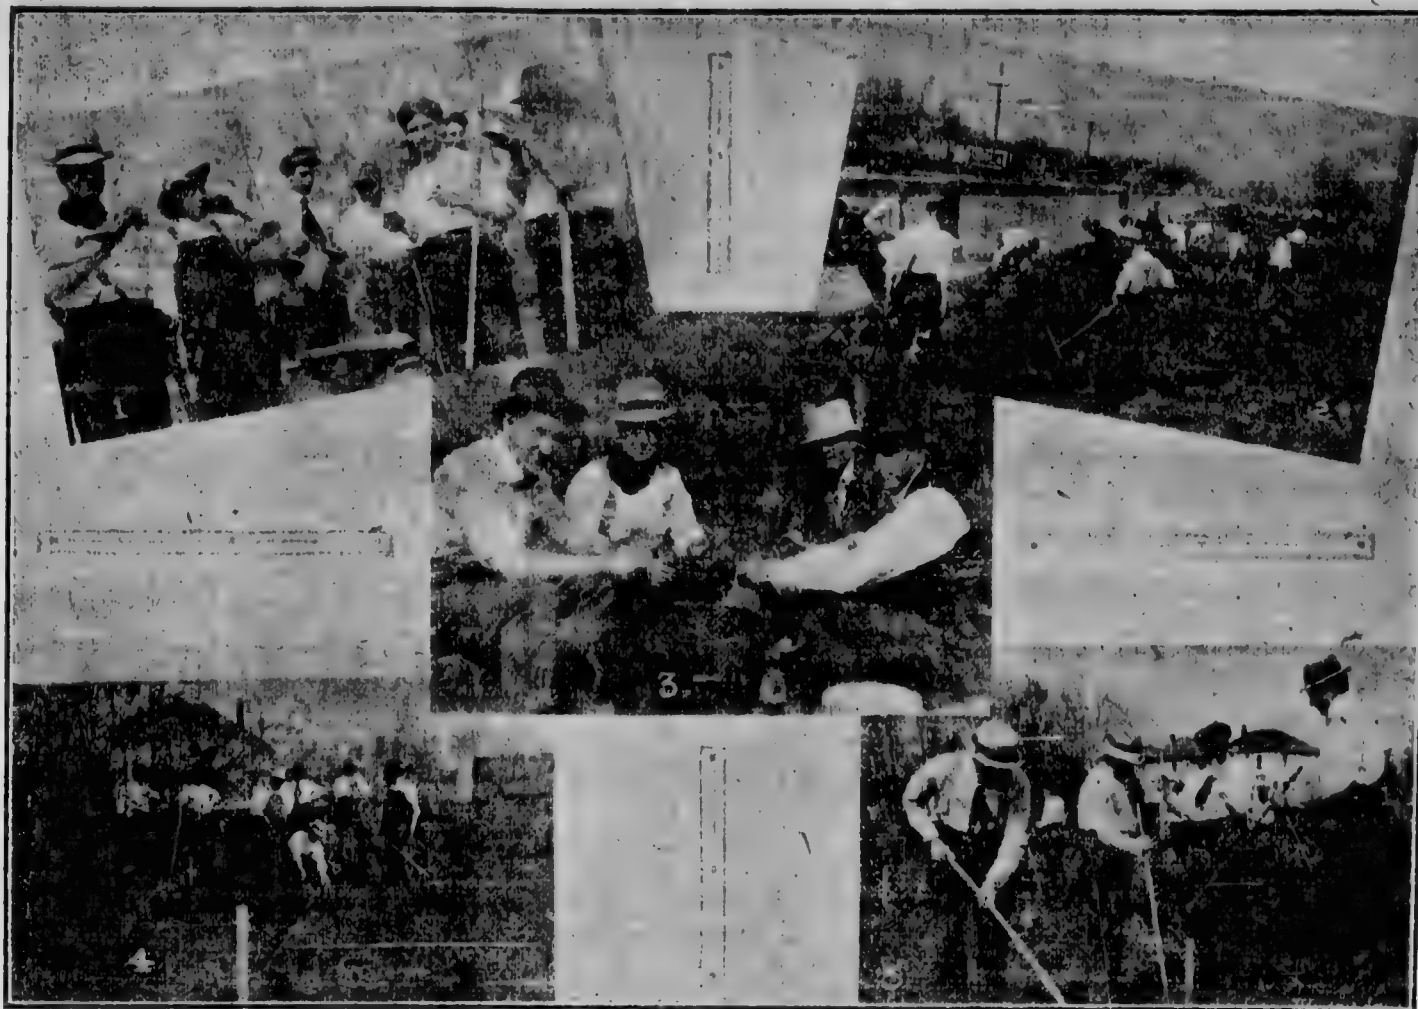

An enjoyable programme was given, refreshments were served and at midnight the floors were cleared for dancing, which was enjoyed until early morning.

PEACE RIVER.
Peace River, May 9.—J. H. Smith of Edmonton is paying a business visit to Peace River.
W. Brennan is in town looking up homesteads with a view to locating in the district.
At the meeting held in the Dominion hall on Monday night, Capt. Coombs told the audience how two brave men of the north came to their death whilst fighting at the front. One known far and wide as "Cha" Chatsworth, an old-timer here, was fighting in a trench against odds with the men of the company when the officer ordered the company to retire. He refused to give up the trench and fought keeping the trench but losing his life. Then, Jas. Pringle, of Spirit River, was with a bunch charging the enemy when the line was held up by a machine gun ably worked by Fritz. The Canadians hid in shell holes and other places of shelter, but Pringle charged the gun, threw his body over the muzzle from which 400 shots a minute were coming and killed all the crew, making a breach for the men of his company to

advance in and saving many lives. Both these men have been recommended to a V.C.
The Red Cross of Peace River is taking up the matter of getting the farmers to sow some special plot for the Red Cross work, devoting its proceeds to the funds. The method to be adopted will be for the crop to be brought to the fair in August, if it be garden produce, and if grain, to be brought to town later. The entire lot of produce will be sent to the city and sold. It is hoped that all will co-operate to make this contribution worthy of the district.

GRANDE PRAIRIE.

Bulletin Correspondence.
Grande Prairie, May 8.—Beautiful warm weather has prevailed during the past few days and conditions are ideal for a bumper crop. There was an abundance of rainfall this spring, after which the large part of the seedling was done before the rather heavy snow storm of a week ago. This left the soil in such a moist condition that the present hot weather is bringing the

Some very moving pictures taken Friday morning when members of the Edmonton Rotary Club turned in to plant their big Jasper avenue Garden. 1—A season of refreshing. Note man in corner of photo drinking from dipper. 2—The gang started on time when Boss Brookbank said go. 3—Supt. of Schools Carpenter, teaching the art of cutting spuds. 4—Laying the line ready for the sower. 5—Boss Brookbank keeps his gang going.

grain up in fine style. Old-timers say that the crops would not suffer as a result should there be no more rain till July. A very large acreage has been cropped in the district and optimism prevails on every side. A large number of settlers are arriving; families with stock and implements, many of whom are buying improved farms in preference to going to the more remote districts to homestead.

A dance was given by the Grande Prairie Band in the Grande Theatre on Friday night last. It was attended by a good crowd and a thoroughly enjoyable evening was spent. As a result of constant practice during the past two months, the band has improved wonderfully and is fast becoming a real musical organization.

The ferry on the Big Smoky at Beaman has again been placed in operation, the ice having gone out of the river some three weeks ago.

Mr. A. H. Allan, of Edmonton, is in town on business, a guest at the Grande Prairie Hotel. This is Mr. Allan's first trip to the north country, and he is much taken up with the country passed through from Spirit River here.

Grading of the city streets has been completed. Several cars of gravel were secured and used to very good advantage on the roads.

Work will shortly be commenced on the Union Bank building to be erected on the corner of Third Avenue and First Street.

A petition is being circulated among the ratepayers, asking authority of the Government for the council to borrow \$15,000 for the purpose of providing additional fire protection and other improvements.

Michigan to Triatram

D. A. Haight arrived with a car of effects from Michigan on Saturday and will settle in the Triatram district, where he has two brothers.—Bashaw Star.

Mother and Daughter Praise Them Highly

Dodd's Kidney Pills Cured Mrs. L. C. Neilson.

She Had Suffered from Kidney Trouble and Indigestion and Her Daughter Was in Poor Health. Both Found Relief in Dodd's Kidney Pills.
Blue Bell, P.O., Victoria Co., N. B., May 10.—(Special.)—Mrs. L. C. Neilson, wife of the assistant postmaster here, and her daughter, are among the many who state that they owe their good health to Dodd's Kidney Pills.

Mrs. Neilson, who is a lady of advanced years, is always ready to tell how she discovered that Dodd's Kidney Pills do all that is claimed for them.

"Last winter I was suffering with very bad kidneys and indigestion," she says. "Everything I ate hurt me so that I was at last forced to live on bread and milk."

"I made up my mind to try Dodd's Kidney Pills as different persons had recommended them. They helped me wonderfully. In a very short time I was able to enjoy good meals without hurting me, and my health was greatly improved."

"My daughter also used Dodd's Kidney Pills with splendid results." Dodd's Kidney Pills cure sick kidneys. Cured kidneys strain all the impurities, all the poison, out of the blood. That means good health all over the body.

A Tribute to Quality

The Military Hospitals' Commission of Canada, with headquarters at Ottawa, Ont., has purchased six new Series 18 Studebaker Touring Cars.

These Studebaker cars are now in constant service throughout Eastern Canada in connection with the efficient work of the commission. Invalid soldiers returning from the trenches on furlough, or for hospital treatment, are being transported from place to place in these silent, smooth-running, powerful Studebakers.

The deep, restful comfort of the Studebaker's luxurious, genuine leather upholstery; the smooth, vibrationless power and perfect balance of the chassis, the long resilient springs, the silence of moving parts, the safety of the full-floating rear axle and oversize brakes—the all around dependability and inbuilt quality of these foremost made-in-Canada cars—make them especially adapted for work of this nature.

See the new Series 18 Studebaker cars now. Ride in them—drive them yourself. Know why they were the choice of Government experts—and the ultimate choice of discriminating motorists everywhere.

"WHY THE AUTOMOBILE CLUB?" GOOD ROADS AND FAIR LAWS SOME OF ITS ACHIEVEMENTS

Edmonton Auto Club is a Business Institution That Wields Great Power Towards Improving Roads and Conditions in Community.

An automobile club in order to be effective, is a business institution, and it is gratifying to know that the president and executive of the Edmonton Automobile Club are working on this basis. The purely social club for automobile owners is being supplanted by the service organization. The social clubs have become merely institutions for eating, golfing and gossiping, the real business of doing things being left to the automobile club.

The great trouble with the automobile club today is the lack of individual interest. A club is formed, a president, a secretary and a board of directors are elected. In most cases these men are chosen because of their ability and popularity in their communities, but an automobile club that confines its work to the election of officers, upon whose shoulders is thrust the entire work of the club, is not likely to get very far. The average automobile owner in joining a motor club is likely to look at the fee he pays as more or less of a charity contribution rather than as an "open sesame" to a work that will enable him and every other motor car owner in his community to get \$5 worth of value out of his motor car, where he did not get one before.

Could every motor car owner understand the full significance of an automobile club, and just what this club can do for him and for his community, he would forgo almost anything rather than not continue to pay time, energy and ability, as well as money, towards the support of his club.

The motor car, without a suitable road to travel over, is merely a thing of beauty, that has very little joy in it.

The real motorist takes very little joy or pleasure in performing stunts on almost impassable country roads. The nerve strain that has to be endured soon loses its thrill, and he longs for the highway where car operation is a second thought.

The problem of good roads is one that must come from the community itself. A highway plan that has for its object the completion of a system of roads over any considerable district at one time will fail, but a highway plan that builds up roads within the communities themselves, roads for which the communities are responsible, and in which they have a local and a financial interest, is a highway plan that will succeed.

Good Roads Necessary.
Every member of a community has a deep interest in good roads. In fact, every member has a financial interest, but it was left to the motorist to discover that the good road was an absolute essential to a community's future existence. The motorist, however, working individually, cannot get very far, but working collectively he can talk long enough and loud enough to make himself heard. Going farther one or two communities in different parts of a province, can bring very ineffective pressure to bear towards securing good roads, but a hundred or two hundred communities, working in concert through the various automobile clubs, can start something that will have a grand finish.

If the automobile club did nothing more than devote its time and attention to the working out of a system of highways in its community, it has every excuse in the world for its existence. When it comes to sign-posting the roads, there is yet to be found a government that has taken the initiative in the matter.

The motor car in the past has been made the butt of much legislation, a great deal of which has been inimical to the motor car user. The individual motor car owner, raising his voice in protest, might just as well talk down a wall, but the motorists working through and supporting a number of automobile clubs, can make any legislature listen to reason and a "square deal."

Vehicle acts are enacted, the contents of which are very little known to the motoring public, and the first thing the motorist knows he wakes up to the fact that there is a joker in it somewhere, that costs him money and much annoyance. As the motor car industry grows, and the motor car comes into more general use, this legislation will become much more frequent, and therefore will require very careful watching, because a law once placed on the statute book is mighty hard to change.

Fifty Million Invested.
When we consider that in the Canadian west at the present time there are over fifty million dollars invested in motor cars, the item of motor car insurance becomes a considerable one, and by having this insurance handled in the cheapest possible manner a great saving can be effected. A number of years ago in Southern California the directors of one of the motor clubs decided to give the members the benefit of reduced insurance cost, and an Inter-Insurance exchange was established as a department, in which club members might insure their cars.

WHAT SHAKESPEARE SAID ABOUT MOTORS

"I will remedy this gear ere long."—Henry VI., Part II.
"The dust hath blinded them."—Henry VI., Part II.
"Like the new tire."—Much Ado About Nothing.
"As horns are odious, they are necessary."—As You Like It.
"I show thee the best springs."—The Tempest.
"As one would set up a top."—Coriolanus.
"Marks upon his battered shield."—Titus Andronicus.
"Had it been all the worth of his car."—Cymbeline.
"And you, sir, for this chain arrested me."—Comedy of Errors.
"Humbleness may drive unto a fire."—Merchant of Venice.
"How quickly should you speed."—Hamlet.
"Our imp is spent, it's out."—Antony and Cleopatra.
"Ant! please you, deliver."—Coriolanus.
"I am out of the road of cutting."—Pericles.

at cost, thus effecting a great saving over the rates of the board companies.

Later the club installed its now famous thief bureau for the recovery of stolen automobiles, which protects its members and non-members alike.

In a single month the thief bureau recovered 35 cars which had been stolen in Los Angeles and other parts of southern California, saving the motorists more than \$25,000. As the Edmonton automobile club is bound to look to the Canadian west as a field for operation, and individual losses are sure to occur, unless some preventive steps are taken.

The Edmonton automobile club has already taken effective steps in the direction of protecting its members from theft.

HIGH SPEED BAD FOR AUTOS, SAYS EXPERT

Makers and Dealers Trying to Prevent Fast Driving By Owners

All engineers and most good mechanics know that nothing is so injurious to a new mechanism as high speed, yet probably a vast majority of new cars are driven at high speed inside of twenty-four hours from the time they are delivered to the retail purchaser.

This tendency on the part of inexperienced drivers every manufacturer and dealer is trying to combat.

In no other line of manufacturing, possibly, is the product so quickly turned over to the mercies of a man who knows little of its mechanical construction and still less of the way to take care of it.

"A high speed passenger locomotive offers an excellent comparison," said the manager of the local branch of an auto company in discussing this topic.

"The locomotive is built to run easily and pull a tremendous load at 70 miles an hour. But is that locomotive put at once into such service?"

The superintendent or master mechanic who would permit such a thing is not fit to hold his position.

"The locomotive is run 'dead' in a freight train to its point of delivery. Then it is easily and carefully broken in by being given slow freight service before it is turned over to the passenger crews."

DRAG THE ROADS.

When the smiles of spring appear.
Drag the roads;
When the summer time is here.
Drag the roads;

When the corn is in the ear.
Drag the roads;
When the winter cold and drear.
Every season of the year.
Drag the roads.

When you've nothing else to do.
Drag the roads;
If but for an hour or two,
Drag the roads;

It will keep them good as new;
With a purpose firm and true
Fall in line; it's up to you—
Drag the roads.

When installing tire chains it is not advisable to have them too tight.

If the chains are held in a fixed position the tread of the tire is apt to be loosened at these points. If the chain is slightly loose it will work around to different positions and cause less injury to the tread.

The holes drilled in muffler sometimes are rough and ragged, with the result that the escaping gases set up a whistling noise anything but agreeable. Smoothing off the rough edges will usually eliminate the unwelcome sound.

If springs squeak badly and you have no time to separate the leaves and grease them properly, try the following: Pour enough kerosene over them so that some of it will run in between the leaves. At the same time wipe off all dirt. Then wipe off the kerosene and pour oil on top, guiding it down the sides of the leaves. It follows the kerosene in between the leaves and usually stops the squeak.

Do not test the storage battery with a screwdriver. You can get a live spark which may lead you to believe there is plenty of current left. As a matter of fact, the spark is the result of a discharge and so most of the current is gone. Always use a hydrometer for testing. The figures

EFFICIENCY TIPS

When making motor adjustments it is usually necessary to exercise a little patience in order to get the best results, for the reason that the effects of adjustments are not always instantly apparent. In carburetor adjustments, for instance, the motor must be given a little time to feel the changes made, and the results obtained immediately following the turn of a needle valve or an air valve spring may be misleading.

When installing tire chains it is not advisable to have them too tight. If the chains are held in a fixed position the tread of the tire is apt to be loosened at these points. If the chain is slightly loose it will work around to different positions and cause less injury to the tread.

The holes drilled in muffler sometimes are rough and ragged, with the result that the escaping gases set up a whistling noise anything but agreeable. Smoothing off the rough edges will usually eliminate the unwelcome sound.

If springs squeak badly and you have no time to separate the leaves and grease them properly, try the following: Pour enough kerosene over them so that some of it will run in between the leaves. At the same time wipe off all dirt. Then wipe off the kerosene and pour oil on top, guiding it down the sides of the leaves. It follows the kerosene in between the leaves and usually stops the squeak.

Do not test the storage battery with a screwdriver. You can get a live spark which may lead you to believe there is plenty of current left. As a matter of fact, the spark is the result of a discharge and so most of the current is gone. Always use a hydrometer for testing. The figures

are easy to remember: 1275, charged; 1175, discharged. These figures are correct for all starting, lighting and ignition batteries.

If you suspect carburetor trouble try the following test: Run your car at closed throttle for two blocks. Choose a moment when there is a clear space ahead, and suddenly press accelerator pedal all the way down. The motor should pick up smoothly to as high speed as you care to run. If motor chokes, stalls, misses, explosions or labors, or gives backfire at carburetor or muffler explosions, it shows the carburetor is out of adjustment.

All new cars and those which have

been run a few hundred miles should have the cylinder oil drained from the crank case. It is good economy to have this oil drained after the first 500 miles on account of the accumulation of grit, particles of carbon and dirt from bearings in the oil. This grit is kept in circulation and acts in the same manner as emery by cutting the bearings.

Opening the relief valves to see if a cylinder is missing explosions is a good way, but it sometimes fails unless you speed up the motor. Give the engine plenty of gas and you will frequently get a burst of flame through the valve from what you thought was a dead cylinder.

If you have detachable wheels, remember that the metal parts may rust. Every time you change a wheel cover the metal contact surfaces with grease, otherwise the detachable wheel will no longer be detachable.

Preparing the Battery for Its Job

The average man buying an automobile, knows in general how to take care of it. He knows that a certain level of oil must be maintained in the crank case, that the grease cups must be tightened up every so often, that the carburetor must not be monkeyed with, but he rarely, if ever, knows anything about the storage battery, upon which so much depends. Generally speaking he never gives

the storage battery a thought until it quits. Then he must take it to a service station where he begins to learn a little about its internal economy and the care that is necessary to keep it in good shape.

But this is a late day for him to be getting this information. The battery has already suffered, and no manner of fixing and tinkering could put it back to its original condition. In other words, the first three months of a battery's life, the very period in which the motorist knows least about it, is the period in which it ought to be given the most and the best care.

Experience, observation and the results of tests of the Willard Storage Battery Company have proved this fact beyond all doubt, and this company at least, is taking steps to see that the battery receives care during this period, by instituting at all its service stations a special 90-day plan, by means of which the new car owner registers his battery at the service station and reports every so often thereafter to allow the battery to be looked into by the expert in charge.

Rheumatism

Muscular and Inflammatory—stiff and swollen joints, pain in the back, etc. promptly relieved. This potent, penetrating oil goes straight to the seat of the trouble, drives out the disease and establishes a normal condition. The standard family remedy for rheumatism for a generation.

MOTORIST SHOULD MAKE HIMSELF MASTER OF HIS AUTOMOBILE ENGINE

Expert Declares Machinery Easy to Understand if Owner Sets Himself to Learn; Essential Parts Few.

"Many persons have trouble with their automobiles because they do not understand them," says a member of an automobile school. "They never expect to obtain the best results from their cars unless they understand the function of each part of the mechanism, the operation, the troubles and minor repairs. This is like a large undertaking, but it can be accomplished if one applies himself systematically to the task. The mystery of mysteries to the average individual is the engine. Unless the construction and operation of the engine are known, the novice can never hope to clear his mind of the haunting dread that 'something is going to happen.'"

"The essential parts of the motor are few and easily learned. Everyone has heard of an engine having four, six or more cylinders. The cylinder is the important part of the engine. Inside it are the moving parts which give power. The more cylinders employed the smoother the engine is supposed to run. The moving parts inside are first the piston, then the wrist pin passing through it. This serves as a hinge for the connecting rod which transmits the power to the crank-shaft running the length of the engine and receiving power from all the cylinders.

Bathe Internally And Keep Well!

Nature has mightily equipped us all, old and young, to resist disease, but she requires that we give her a chance. We give her no chance if we permit the lower intestine to be more or less clogged with accumulated waste. Yet that is a universal condition today, as is proven by the number of laxative drugs that are consumed. You can help Nature in Nature's most effectual way by internal bathing, and in an easy, non-habit-forming way keep the intestine as sweet and clean as Nature demands it to be for perfect health and sure defence against contagion. Over half a million keen, bright, healthy people testify to its result. Mrs. C. G. M. (name on request) of Strathroy, Ont., writes: "I am pleased to have this opportunity of testifying to the merits of the J. R. L. Cascade. I have been using it now for a year with satisfactory results. I am an old woman, but my health is so improved that I have a renewed lease of life. You are at liberty to give my address to anyone privately who may desire to write to me regarding the Cascade. Just call at Miss R. Edmonds, Hospital Graduate, 1004 8th Avenue, Edmonton South (Telephone 3128), and request free booklet, 'Why Man of Today Is Only 50 for Cent. Efficient.' The most efficient device for internal bathing, the J. R. L. Cascade, will also be shown and explained to you if you so desire. If you prefer, write for booklet to Dr. Chas. A. Farrell, 123 College Street, Toronto.

WAR AT FRONT PEACE WITHIN WATCHWORD OF THE RUSSIANS

Alexander J. Guchkoff, Provisional Minister of War and Navy, Outspoken

Petrograd, May 11.—Alexander J. Guchkoff, provisional minister of war and navy, in the course of a speech before the Duma which was received with applause, said:

"Unfortunately the first feeling of radiant joy evoked by the revolution, soon gave place to one of pain and anxiety. The provincial government explained the cause of this is a declaration pointing out that the destruction of the old forms of public life had been effected more rapidly than had the creation of new forms to replace them.

"Our poor country is fighting at an extraordinary juncture of an unparalleled war and internal troubles such as we have never seen before and only a strong government could power able to rely on the confidence of the nation can save it.

"Terrible Legacy. We received a terrible legacy from the old regime, which was incapable of governing in time of peace, and still less was able to do so while waging war.

"We all know the conditions under which our valiant army defended every foot of Russian territory and how it still is carrying on a truly heroic struggle.

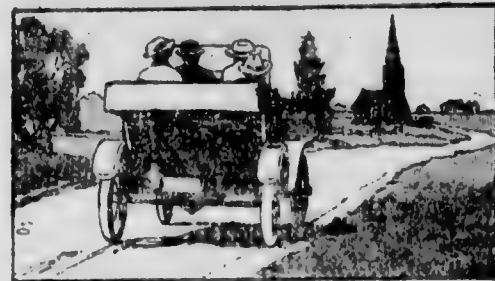

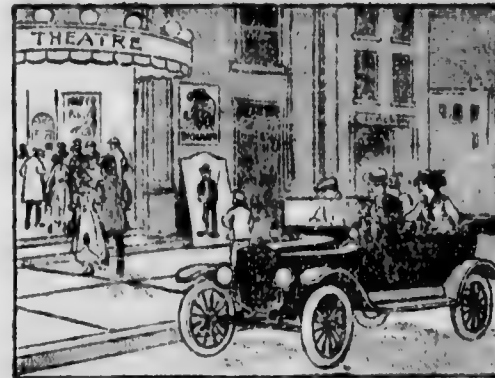

"One more effort, an effort by the whole country, and the enemy will be beaten, but we have got to know first of all whether we can make this effort."

"The coup d'etat found echoes in the army and navy which, believing in their creative strength, unanimously adhered to the new regime and set to work on a radical reform of the armed forces of the country."

"Military Might Weakened.

"For the moment we have our military powers would emerge from the salutary process regenerated and renewed in strength and that a new reasonable discipline would weld the army together, but that has not been the case and we must frankly face the fact that our military might is weakened and disintegrated, being affected by the same disease as the country, namely, duality of power, polyarchy and anarchy, only the malady is more acute.

"It is not too late to cure it, but not a moment must be lost. Those we either deliberately or not realizing what they were doing, have cast into our midst the subversive water-world of peace at the front and war in the country, those people, I say, are carrying on a propaganda of peace at any price and civil war, cost what it may. The watchword must be smothered by another, that being 'war at the front and peace within the country.' 'Gentlemen, sometime ago the country realized that our motherland was in danger. Since then he have gone a step further for our motherland is on the edge of an abyss.'"

Keeping the Boys and Girls Contented

A Ford car will give your boys and girls so much additional pleasure and enjoyment that they will be more satisfied to remain on the farm. They may then enjoy all the pleasures of city life and still live at home.

For a trip to a distant house party, a quick run to the nearest town or city theatre, or a quiet ride to church—the Ford does it all.

Buy a Ford and note the new interest you take in life. You will find your Ford always ready for a spin on either business or pleasure.

If you have a "problem" in keeping your boys and girls at home, try to solve it the Ford way, you'll find life more worth living. Work on the farm will be easier, because you have more pleasure to go with it.

YOU CAN EASILY SUPPLY YOUR WANTS THROUGH LITTLE BULLETIN ADS.

The Morning Bulletin

Use Your Phone!
Ours is
Day Phone - 9324
After 5.30 p.m. - 5883

All telephone instructions regarding advertising are at sender's risk. Such instructions should always be confirmed in writing.

RATES FOR CLASSIFIED OR WANT ADVERTISEMENTS
Situations Vacant, Situations Wanted, To Rent, Articles Lost or Found, Business Cards, etc., 10¢ per word per insertion; 50¢ per word per week; 50¢ per word per month. No advertisement taken for less than 20 cents.

In computing the number of words in an advertisement figure groups of five or less figures one word. Dollar marks and all abbreviations each count as one word.

Advertisers who desire may have replies addressed to a box at the Bulletin, and forwarded to their private address. A charge of 10¢ is made for this service.

This charge covers insertions in both Morning and Evening Editions of the Bulletin.

Special contract rates for standing cards full information on which will be given at the Office.

Notice to Creditors
And Claimants

IN THE MATTER OF THE ESTATE OF
HUGH GALLAGHER, LATE OF ROSA
CREEK, IN THE PROVINCE OF AL-
BERTA, DECEASED.
NOTICE is hereby given that all persons
having claims upon the estate of the late
Hugh Gallagher, who died on or about the
12th day of January, 1914, are required to
send to the Standard Trust Company, Ed-
monton, Alberta, Administrator of the said
estate, on or before the expiry of seven
weeks from the date of the first publica-
tion of this notice, a full statement of their
claims verified by statutory Declaration,
and setting forth any securities which may
be held by them, or any sum of money
due by them to the said estate, and that
after that date the Administrator may pro-
ceed to distribute the Assets of the De-
ceased among the parties entitled thereto,
having regard to the claims of which no-
tice has been filed, or of which it has
notice.

DATED at Edmonton, in the Province of
Alberta, this 4th day of May, A.D. 1917.
GARIEPY, DUNLOP & PRATT,
Barristers, Etc., Edmonton, Alberta,
Solicitors for the Standard
Trust Company, Administrator
of the Estate.

APPROVED: J. L. C. J.
The first publication of this Notice was
made on the 6th day of May, A.D. 1917.

IN THE ESTATE OF SWEN THORSON,
LATE OF SENSIBILL, ALBERTA,
FARMER, DECEASED.
PURSUANT to the Order of Judge Nod
dated the 4th day of April, A.D. 1917,
notice is hereby given that all persons
having claims upon the estate of the above
named Swen Thorson, who died on or about
the 12th day of December, A.D. 1916, are re-
quired to file with the Western Trust Com-
pany, at Edmonton, Alberta, a full state-
ment of their claims, verified by statutory
Declaration, and setting forth any securities
held by them, and that after that date the
official administrator, the Western Trust Com-
pany, will distribute the assets of the de-
ceased among the parties entitled thereto,
having regard to the claims of which no-
tice has been filed or which have been
brought to its knowledge.

Dated this 4th day of April, A.D. 1917.
